

RFP 1-08-C130

**ROUTE 28 CONCRETE WALL EXTENSION
WASHINGTON DULLES INTERNATIONAL AIRPORT**

QUESTIONS AND ANSWERS

MAY 8, 2008

1. Question: The drawings do not indicate what is to be seeded and sodded. Please note specifically which drawings should be used to measure seed and sod.

 Answer: There are no specific areas designated to be seeded and sodded. The contractor will be required to restore turf and grass areas to their original condition if these areas are damaged or disturbed by the contractor's operations. The purpose of the specification 02930 TURF PREPARATION AND SEEDING is to provide the necessary criteria should this work become necessary.
