September 2014
Financial Advisor Report - The Aviation Enterprise

## InTRODUCTION

The Finance Committee has requested that the Aviation Enterprise Financial Advisors provide a monthly report on the status of the financing of the Capital Construction Program (ССР) and any related issues concerning the Airports Authority’s Aviation Enterprise capital financing activities. The Financial Advisors presents this Monthly Report, focusing on the specific debt management projects underway, the debt policy framework guiding these projects and the financing of the CCP in general.

## DISCUSSION SUMMARY

This paper is organized as follows:
I. Executive Summary
II. Action Items
A. Bank Solicitation for Certain 2015 Expiring Bank Facilities
III. Informational Items
A. Review of Financing Proposals
IV. Monthly Updates
A. CCP: Actuals vs. Projections
B. Short-term Liquidity Forecast
C. Variable Rate Programs
D. Swaps -Swap Performance

Exhibits
A. Airports Authority's Capital Construction Program
B. Airport System Revenue Bonds

- Summary of Bonds Outstanding
- Refunding Monitor
C. Variable Rate Programs
- Overview
- Historical Performance
D. Swap Program
- Airports Authority Swap Profile
- Historic Performance of 2009 Swaps

## Jefferies

## I. EXECUTIVE SUMMARY

## Action Items

$\rightarrow$ Bank Solicitation for Certain 2015 Expiring Bank Facilities. The financing team has concluded negotiations with two banks to refinance two bank facilities scheduled to expire in 2015. Under separate cover at this September Finance Committee meeting, the financing team is requesting Committee approval of final documents related to: (a) extending the scheduled termination date with Wells Fargo for the currently outstanding $\$ 161.785$ million Series 2010D; and (b) remarketing $\$ 173.185$ million Series 2011B to PNC as purchaser of the Bonds. The proposed agreements will extend the scheduled expiration dates to 2017 and reduce the Airports Authority's total costs for these two Series by $\$ 1.26$ million to $\$ 1.13$ million annually over the term of the agreements. Following the Finance Committee and Board approval of the final bank documents at the September meetings, the Airports Authority will close the Series 2010D extension on September 23, 2014 and the Series 2011B remarketing on October 2, 2014.

## Informational Items

$\rightarrow$ Review of Financing Proposals. Finance Staff and the Financial Advisors will be meeting on September 17 to review the unsolicited proposals received by underwriters to-date. These financing ideas include investment strategies, shortterm products as well as recommendations related to Bonds callable in 2015.
$\rightarrow$ Capital Construction Program. For 2014, CCP expenditures are budgeted at $\$ 209.5$ million including construction and capitalized interest costs. Expenditures in July 2014 totaled $\$ 3.6$ million and in August totaled $\$ 10.0$ million, both months including accrued capitalized interest expenditures. Through the end of August 2014 year-to-date capital expenditures were $\$ 78.7$ million.

## Jefferies

## II. Action Items

## (II.A) Bank Solicitation for Certain 2015 Expiring Bank Facilities

The Airports Authority has $\$ 1.115$ billion of bank facilities currently outstanding supporting variable rate bonds. Three bank facilities scheduled to expire in 2015 support approximately $\$ 500$ million of outstanding variable rate bonds. Of these bank facilities, the Airports Authority can refinance those related to the Series 2010D (an indexed floater program with Wells) and Series 2011B (an indexed floater program with Citi) without incurring a penalty if such facilities are terminated prior to their scheduled expiration date.

Portrolio of Bank Facilities

| SCHEDULED EXPIRATION | Amount OUTSTANDING | Series (Tax Status) | Amount Hedged (\$) | Amount UnHEDGED (\$) | BANK FACILITY |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2015 | \$506,540,000 | 2010C1 (AMT) | - | 61,350,000 | Barclays LoC |
|  |  | 2010C2 (NON-AMT) | 98,210,000 | - | Barclays Loc |
|  |  | 2010D (NON-AMT) | 161,785,000 | - | Wells Floaters |
|  |  | 2011B (AMT) | - | 185,195,000 | Citi Floaters |
| 2016 | 280,865,000 | 2011A (AMT) | 219,340,000 | - | Wells Floaters |
|  |  | 2003D1 (AMT) | - | 61,525,000 | Bofa Floaters |
| 2017 | 327,755,000 | CP 2 | - | 200,000,000 | Sumitomo LoC |
|  |  | 2009D (NON-AMT) | 127,755,000 |  | TD LoC |
| Totals | \$1,115,160,000 |  | \$607,090,000 | \$508,070,000 |  |

Pursuant to a bank facility distributed in May, the Airports Authority received eleven proposals in June and Finance Staff and the Financial Advisor reviewed the results with the Finance Committee in Executive Session in July. Following that review, the financing team began negotiating documents with two banks. Under separate cover at the September Finance Committee meeting, the financing team is requesting Committee approval of final documents.

1) Series 2010D: Extend the scheduled termination date with Wells for the currently outstanding $\$ 161.785$ million Series 2010D, lowering the spread from 72 percent of one-month LIBOR plus 65 basis points to 72 percent of one-month LIBOR plus 32.5 basis points—reducing the Series 2010D fees by approximately $\$ 0.52$ million in the first year. In addition, the Series 2010D scheduled expiration will be extended to 2017.

## Jefferies

2) Series 2011B: Remarket $\$ 173.185$ million ${ }^{1}$ Series 2011B to PNC as purchaser of the Bonds, changing the spread from SIFMA plus 75 basis points to 72 percent of onemonth LIBOR plus 32 basis points ${ }^{2}$-reducing the Series 2011B fees by approximately $\$ 0.74$ million in the first year. In addition, the Series 2011B scheduled expiration will be extended to 2017.

Following the Finance Committee and Board approval of the final bank documents at the September meetings, the Airports Authority will be scheduled to close the series 2010D Wells extension and the Series 2011B remarketing to PNC:

- Series 2010D: Wells extension scheduled to close on September 23, 2014;
- Series 2011B: Remarketing to PNC scheduled to close on October 2, 2014.

[^0]
## III. INFORMATIONAL ITEMS

(III.A) Review of Financing Proposals

Over the last few months, the Airports Authority has received unsolicited financing ideas from members of its Aviation Enterprise underwriting team as well as firms who wish to be considered for the Aviation Enterprise underwriting team. These ideas include investment strategies, short-term products as well as recommendations related to Bonds callable in 2015. Finance Staff and the Financial Advisors will be meeting on September 17 to review these proposals.

## Jefferies

## IV. Monthly Updates

## (IV.A) CCP: Actuals vs. Projections

Exhibit A sets forth the major 2001-2016 CCP projects underway at the Airports Authority, as well as historical CCP actual versus projected expenditures. For 2014, CCP expenditures are budgeted at $\$ 209.5$ million including construction and capitalized interest costs. Expenditures in July 2014 totaled $\$ 3.6$ million and in August 2014 totaled $\$ 10.0$ million, including capitalized interest expenditures. Through the end of August 2014, year-to-date capital expenditures were $\$ 78.7$ million.

|  | 2014 CCP Projections vs. Actuals <br> (\$ millions) |  |
| :---: | :---: | :---: | :---: | :---: |
|  | General Ledger <br> Actual |  |

## (IV.B) Short-term Liquidity Forecast

The following (including the table and chart) is based on information provided to the Financial Advisors by Finance staff.

As of the beginning of September 2014, the Airports Authority had $\$ 187.9$ million of cash-on-hand ${ }^{4}$ and $\$ 179$ million of additional available liquidity in the form of undrawn CP Series Two capacity.

Short-term Liquidity Forecast (\$ millions)

| Beginning <br> of Month | Cash <br> Available | CP Available <br> to Draw | PFCs | Grants | Projected <br> Expenditures |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Sep-14 | 187.9 | 179.0 | 0.1 | 4.0 | $(16.0)$ |
| Oct-14 | 176.0 | 179.0 | 0.1 | 4.0 | $(24.2)$ |
| Nov-14 | 155.9 | 179.0 | 0.1 | 4.0 | $(16.6)$ |
| Dec-14 | 143.4 | 179.0 | 0.1 | 4.0 | $(16.6)$ |

[^2]

## (IV.C) Variable Rate Programs

In addition to the approximately $\$ 936.2$ million of variable rate debt that the Airports Authority has currently outstanding, it can issue up to $\$ 179$ million of CP Two Notes which are currently "on-the-shelf."

The approximately $\$ 329.1$ million in unhedged variable rate debt outstanding represents approximately 6.5 percent of the outstanding $\$ 5$ billion indebtedness.

Gross Variable Rate Exposure

| Fixed Rate Debt Percentage: |  |  |
| :--- | ---: | ---: |
| Fixed Rate Debt | $\$ 4,092,565,000$ |  |
| 2009D VRDOs (Hedged) | $127,755,000$ |  |
| 2010C2 VRDOs (Hedged) | $98,210,000$ |  |
| 2010D Index Floater (Hedged) | $161,785,000$ |  |
| 2011A Index Floater (Hedged) | $219,340,000$ |  |
| Fixed Rate |  | $\mathbf{\$ 4 , 6 9 9 , 6 5 5 , 0 0 0}$ |
| Variable Rate Debt Percentage: | $\mathbf{9 3 . 4 6 \%}$ |  |
| 2003D Index Floater | $61,525,000$ |  |
| 2010C1 Index Floater | $61,350,000$ |  |
| 2011B Index Floater | $185,195,000$ |  |
| CP Notes | $21,000,000$ |  |
| Variable Rate | $\mathbf{\$ 3 2 9 , 0 7 0 , 0 0 0}$ | $\mathbf{6 . 5 4 \%}$ |
| Combined Total | $\mathbf{\$ 5 , 0 2 8 , 7 2 5 , 0 0 0}$ | $\mathbf{1 0 0 . 0 0 \%}$ |

The Airports Authority's current \$315 million unrestricted cash balances in short-term investments can be netted against variable rate debt exposure to produce a "net variable rate exposure." Currently, the Airports Authority has $\$ 14$ million of net variable rate exposure.

Exhibit C-2 illustrates for the current year the rolling three-month average spreads to the SIFMA of the Airports Authority's variable rate programs, as well as historic spreads to SIFMA by quarter.
(IV.D) Swaps - Monthly Swap Performance

2002 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.45 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2002 Swap originally hedged the Series 2002C Bonds and now hedges the 2011A-2 Indexed Floaters which refunded the Series 2002C Bonds in full. The Airports Authority pays 72 percent of LIBOR plus 77 basis points on the Indexed Floaters. The All-In Effective Rate of the swap is therefore equal to the fixed swap rate of 4.45 percent plus the spread of 77 basis points: 5.22 percent. This All-In Effective Rate remains fixed and monthly cash flow history on this swap is no longer included in Exhibit D1.

2009 Swaps: Under the terms of the swap agreements, the Airports Authority pays to the counterparties an average fixed rate of 4.10 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparties 72 percent of one-month LIBOR based upon the outstanding notional amount of its respective swaps. The 2009 Swap originally hedged the Series 2009A Bonds and 2009D Bonds. The Series 2009A were partially refunded by the Series 2010C2 Bonds and the remaining portion was fully refunded by the Series 2011A-3 Bonds. The 2009 swaps now hedge the 2011A-3 Indexed Floaters and the 2009D and 2010C2 Variable Rate Demand Obligations (VRDOs). On the Indexed Floaters, the Airports Authority pays 72 percent of LIBOR plus 77 basis points. The All-In Effective Rate of the swap related to these Bonds is therefore equal to the fixed swap rate of 4.10 percent plus the spread of 77 basis points: 4.87 percent. This All-In Effective Rate remains fixed and monthly cash flow history on this swap associated with the Indexed Floaters is no longer included in Exhibit D. Exhibit D-3 provides the historical monthly cash flow history of the 2009 swaps associated with the hedged VRDOs (currently the 2009D and 2010C2).

2010 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.11 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2010 Swap hedges the Series 2010D Indexed Floaters. The Airports Authority pays 72 percent of LIBOR plus 75 basis points on the Indexed Floaters. The All-In Effective Rate of the swap is therefore equal to the fixed swap rate of 4.11 percent plus the spread of 75 basis points: 4.86 percent. This All-In Effective Rate remains fixed and monthly cash flow history on this swap is not included in Exhibit D.

2011 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 3.86 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2011 Swap hedges the Series 2011A-1 Indexed Floaters. The Airports Authority pays 72 percent of LIBOR plus 77 basis points on the Indexed Floaters. The All-In Effective Rate of the swap is therefore equal to the fixed swap rate of 3.86 percent plus the spread of 77 basis points: 4.63 percent. This All-In Effective Rate remains fixed and monthly cash flow history on this swap is not included in Exhibit D.

## Exhibit B-2 <br> Airport System Revenue Bonds Refunding Monitor

## Current Refunding Opportunities

There are no current refunding opportunities at this time.

## Advance Refunding Candidates - Non-AMT

There are no advance refunding opportunities at this time ${ }^{5}$.

## Refunding Candidates - AMT

The Series 2005A-B and 2005D Bonds may NOT be advance refunded with the proceeds of tax-exempt bonds. However, it is illustrative to consider hypothetical advance refunding results to use as a benchmark in evaluating the efficiency of other refunding strategies. The table below illustrates results of hypothetical AMT advance refundings.

| Series | Callable Par/ Maturities | Range of Interest Rates | Call Date | Call Premium | Savings <br> Required | Net PV Savings | Negative Arbitrage |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2005A | \$227,455,000 | 4.25\% - 5.25\% | 10/1/2015 | 0\% | 1\% | \$12.6 mm, $5.5 \%$ | \$7.4 mm |
| AMT | (2016-2035) |  |  | (at par) |  | \$227.4 mm refunded |  |
| 2005B | \$10,890,000 | 4.00\% - 5.25\% | 10/1/2015 | 0\% | 1\% | \$0.9 mm; 8.5\% | \$0.1 mm |
| Non-AMT | (2016-2020) |  |  | (at par) |  | \$10.9 mm refunded |  |
| $\begin{gathered} 2005 \mathrm{D} \\ \text { Non-AMT } \end{gathered}$ | $\begin{gathered} \$ 7,650,000 \\ (2021-2023) \end{gathered}$ | 5.00\% | 10/1/2015 | $\begin{gathered} 0 \% \\ \text { (at par) } \end{gathered}$ | 1\% | \$1.0 mm; 13.6\% $\$ 7.6 \mathrm{~mm} \text { refunded }$ | \$0.2 mm |

Since these bonds may not be advance refunded with tax-exempt bonds, alternative strategies include, but are not limited to, taxable advance or forward refundings.

## Refunding Candidates - Taxable

The Series 2005C Bonds may be advance refunded with the proceeds of taxable bonds.

| Series | Callable Par/ <br> Maturities | Range of <br> Interest Rates | Call Date | Call <br> Premium | Savings <br> Required | Net PV Savings | Negative <br> Arbitrage |

## Exhibit C-1 <br> Variable Rate Programs - Overview

Summary of Dealers, Credit Enhancement and Bank Facilities.
Details of Dealers.

| Dealer | Program/ <br> Series | Amount <br> $(\$ M M)$ | Remarketing <br> Fees |
| :--- | :--- | :---: | :---: |
| Merrill Lynch | CP: Series Two* | Up to \$200 | $0.05 \%$ |
| Bank of America | Index Floater: 2003 D1 Bonds | $\$ 61.525$ | None |
| Bank of America | VRDO: 2009D Bonds** | $\$ 127.755$ | $0.08-0.10 \%$ |
| Barclays | VRDO: 2010C Bonds | $\$ 159.560$ | $0.08 \%$ |
| Wells Fargo | Index Floater: 2010D Bonds | $\$ 161.785$ | None |
| Wells Fargo | Index Floater: 2011A Bonds | $\$ 219.340$ | None |
| Citi | Index Floater: 2011B Bonds | $\$ 185.195$ | None |

* The CP Series One has been suspended and the CP Series Two is authorized to be issued up to $\$ 200$ million effective March 6, 2014.
** The Series 2009D Bonds in a daily mode have a 0.10 percent remarketing fee and those bonds in a weekly mode have a 0.08 percent remarketing fee.

Details of Facilities.

| Bank Provider | Facility | Program/ <br> Series | Amount <br> $(\$ \boldsymbol{M M})$ | Costs <br> (bps) | Expiration Date |
| :--- | :--- | :--- | :---: | :---: | ---: |
| Sumitomo | LOC | CP: Series Two | $\$ 200.000$ | 33.0 | March 6, 2017 |
| Bank of America | Index Floater | 2003 D1 | $\$ 61.525$ | $70.0^{*}$ | December 16, 2016 |
| TD Bank | LOC | 2009 D VRDO | $\$ 127.755$ | 61.0 | December 2, 2017 |
| Barclays Capital | LOC | 2010 C VRDO | $\$ 159.560$ | 70.0 | September 23, 2015 |
| Wells Fargo | Index Floater | 2010 D | $\$ 161.785$ | $65.0^{*}$ | December 18, 2015 |
| Wells Fargo | Index Floater | 2011A | $\$ 219.340$ | $82.0^{*}$ | September 21, 2016 |
| Citi | Index Floater | 2011B | $\$ 185.195$ | $75.0^{* *}$ | September 17, 2015 |

* This is a fixed spread to the 72 percent of LIBOR Index.
** This is a fixed spread to the SIFMA Index.
Note: The fees above reflect the increases due to the Moody's downgrade.

## Exhibit C-2 <br> Variable Rate Programs Historical Performance

The following tables illustrate (i) rolling three-month average spreads to SIFMA and (ii) rolling 12-month average spread to SIFMA including credit and remarketing fees.

| 2014 Interest Rates (by quarter) |  |  |  |  |  |  |  |  |  |

[^6]Exhibit D-1<br>Swap Profile

The table below summarizes the Airports Authority's current swap profile. All of the Airports Authority's swaps call for a fixed rate to be paid by the Airports Authority to the counterparty and a variable rate to be received by the Airports Authority based upon 72 percent of LIBOR.

| Trade Date | Effective Date | Termination Date ("final maturity") | Swap Providers | Ratings Moody's/S\&P/ Fitch | Outstanding Notional Amount (\$millions) | Hedged Series | $\begin{aligned} & \text { Current } \\ & \text { Termination } \\ & \text { Value }^{12} \end{aligned}$ | Fixed Rate |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 7/31/01 | 8/29/02 | 10/1/21 | Bank of America | A2/A/A | \$43.3 | 2011A-2 | (\$5,290,000) | 4.445\% |
| 6/15/06 | 10/1/09 | 10/1/39 | JPMorgan Chase Bank of America | $\begin{gathered} \mathrm{A} 33 / \mathrm{A}+/ \mathrm{A}+ \\ \mathrm{A} 2 / \mathrm{A} / \mathrm{A} \end{gathered}$ | $\begin{aligned} & \$ 177.4 \\ & \$ 102.7 \\ & \hline \$ 280.1 \end{aligned}$ | $\begin{aligned} & \text { 2011A-3 } \\ & \text { 2009D } \\ & \text { 2010C2 } \end{aligned}$ | $\begin{aligned} & (\$ 46,902,000) \\ & (\$ 26,801,000) \\ & (\$ 73,703,000) \end{aligned}$ | 4.099\% |
| 6/15/06 | 10/1/10 | 10/1/40 | Wells Fargo | Aa3/AA-/AA- | \$161.8 | 2010D | (\$44,229,000) | 4.112\% |
| 5/13/05 | 10/1/11 | 10/1/39 | Wells Fargo | Аа3/AA-/AA- | \$121.9 | 2011A-1 | (\$26,791,000) | 3.862\% |
|  |  |  |  | Aggregate Swaps | \$607.1 |  | (\$150,013,000) |  |

The table below presents the all-in effective rate of the swaps. The 2002, 2010 and 2011 swaps hedge only indexed floaters. The 2009 swaps hedge both indexed floaters and VRDOs (separate all-in effective rates are presented for each). The interest rate paid on each of the indexed floaters is equal to 72 percent of LIBOR plus an agreed upon spread. The all-in effective rate is therefore equal to the fixed swap rate plus the agreed upon spread ( 82 basis points on the 2011A Bonds and 65 basis points on the 2010D Bonds). In Exhibit D-2, we track the monthly performance and all-in effective rate of the 2009 swap in relation to the hedged VRDOs.

| Effective <br> Date | Notional <br> Amount <br> $(\$ m i l l i o n s)$ | Hedged Series | Fixed <br> Rate | All-In <br> Effective <br> Rate* |
| :---: | :---: | :---: | :---: | :---: |
| $8 / 29 / 02$ | $\$ 43.3$ | 2011A-2 (Indexed Floaters) | $4.445 \%$ | $5.265 \%^{* *}$ |
| $10 / 1 / 09$ | $\$ 54.1$ | 2011A-3 (Indexed Floaters) | $4.099 \%$ | $4.919 \%^{* *}$ |
| $10 / 1 / 09$ | $\$ 226.0$ | 2009D\&2010C2 (VRDOs) | $4.099 \%$ | $4.941 \%$ |
| $10 / 1 / 10$ | $\$ 161.8$ | 2010D (Indexed Floaters) | $4.112 \%$ | $4.762 \%$ |
| $10 / 1 / 11$ | $\$ 121.9$ | 2011A-1 (Indexed Floaters) | $3.862 \%$ | $4.682 \%$ |

*The All-In Effective Rate takes into account the agreed upon spread on indexed floaters and remarketing and bank facility costs on the VRDOs.
${ }^{* *}$ Note that the all-in effective rate is effective as of October 1, 2011 and does not take into account performance prior to that date when the swaps hedged the Series 2002C and 2009A Bonds (VRDOs) The Series 2002C and 2009A Bonds are no longer outstanding.

[^7]
## Jefferies

## Exhibit D-2 <br> 2009 Swap Effective Interest Rate to-date and Monthly Performance

The Airports Authority's 2009 Swap is a fixed-payor interest rate swap. Under the 2009 Swap, (a) the Airports Authority pays a fixed rate, 4.099 percent, to the swap counterparty; (b) in return, the swap counterparty pays the Airports Authority a variable rate of interest equal to 72 percent of one-month LIBOR. This variable rate received from the counterparty was designed to closely correlate the interest rate the Airports Authority pays on the underlying variable rate bonds, thereby creating essentially fixed rate debt (synthetic fixed rate debt). The Swap Agreement was dated June 15, 2006, and effective October 1, 2009. The 2009 Swap counterparties were Bear Stearns and Bank of America. However, Bear Stearns was bought by JP Morgan in March 2008. The following table presents the 72 percent of one-month LIBOR rate received from the counterparties, the average monthly interest rate on the hedged variable rate bonds paid by the Airports Authority (excludes hedged indexed floaters), and the resulting effective all-in interest rate on the swap. The 2009 swap hedges the Series 2009D Bonds and the Series 2010C2 Bonds. The swap previously hedged the Series 2009A Bonds until these bonds were refunded by the 2011A-3 Indexed Floaters (the calculated effective rate does take into account the 2009A Bonds prior to being refinanced).

[^8]
[^0]:    ${ }^{1}$ Series 2011B is currently outstanding in an amount of $\$ 185.195$ million. Following the October 1, 2014 principal payment date, Series 2011B will have $\$ 173.185$ million outstanding. The remarketing of the Series 2011B is scheduled to take place after October 1 to accommodate the scheduled retirement of $\$ 12.010$ million.
    ${ }^{2}$ Over the last five years, SIFMA has averaged 1.2 bps above $72 \%$ of one-month LIBOR.

[^1]:    ${ }^{3}$ As provided by the Airports Authority.

[^2]:    ${ }^{4}$ The cash-on-hand includes proceeds of the Series 2014A Bonds received in July and Funds 63 and 64.

[^3]:    * Historical projections for 2001-2003 do not reflect periodic revisions. 2002: the last revision for 2002 projected $\$ 271$ million of capital spending for the year. 2003: the last revision for 2003 projected a total of $\$ 287.5$ million.
    ** Projection reflects December 2005 budget amendment.

[^4]:    ${ }^{5}$ The Series 2005B, Series 2005D, Series 2006C, Series 2012B and Series 2013C are non-AMT. However, they may not be advance refunded since the proceeds were used to advance refund other Airports Authority Bonds. The Non-AMT Bonds (2009B, 2009C, 2010A, 2010F1) were issued as private activity Non-AMT Bonds and cannot be advance refunded. The 2011D Bonds were issued as a current refunding but given the length of time to the call date is not a viable refunding candidate.

[^5]:    ${ }^{6}$ On December 18, 2012, Bank of America purchased the 2003D-1 Bonds as Indexed Floaters. On April 16, 2009, Wells Fargo took over the remarketing of the 2003D-1 Bonds from Goldman Sachs.
    ${ }^{7}$ On April 23, 2009, Morgan Keegan took over the remarketing of the 2003D-2 Bonds from Morgan Stanley; on July 30, 2009, Wachovia took over the remarketing from Morgan Keegan and became the LoC Provider replacing Regions Bank. As of October 1, 2010, the 2003D-2 Bonds were no longer outstanding.
    ${ }^{8}$ Bank of America replaced UBS as Remarketing Agent in April 2008.
    Note: 2011B is a fixed spread to SIFMA and will not be tracked here.

[^6]:    ${ }^{9}$ On December 18, 2012, Bank of America purchased the 2003D-1 Bonds as Indexed Floaters. On April 16, 2009, Wells Fargo took over the remarketing of the 2003D-1 Bonds from Goldman Sachs.
    ${ }^{10}$ On April 23, 2009, Morgan Keegan took over the remarketing of the 2003D-2 Bonds from Morgan Stanley; on July 30, 2009, Wachovia took over the remarketing from Morgan Keegan and became the LoC Provider replacing Regions Bank. As of October 1, 2010, the 2003D-2 Bonds were no longer outstanding.
    ${ }^{11}$ Bank of America replaced UBS as Remarketing Agent in April 2008.
    Note: 2011B is a fixed spread to SIFMA and will not be tracked here.

[^7]:    ${ }^{12}$ Amounts as of August 29, 2014; A negative value represents a payment by the Airports Authority to the counterparty if the swap is terminated in the current market; a positive value represents a receipt by the Airports Authority if the swap is unwound in the current market.

[^8]:    ${ }^{13}$ One-month LIBOR is weighted average of weekly one-month LIBOR as reset each Tuesday for a Thursday effective date except for the Bank of America swap where the two London Banking Days are replaced by one London Banking Day.
    ${ }^{14}$ The 2009D-1 and 2010C-2 variable rate bonds are currently in a weekly mode, with interest rate resets each Wednesday for a Thursday effective date. The 2009D-2 variable rate bonds are currently in a daily mode. The 2009A variable rate bonds were in a weekly mode, with interest rate resets each Tuesday for a Wednesday effective date. The interest rate is the all-ion interest rate including bank facility costs.
    ${ }^{15}$ Totals will not add due to the day count difference of 30/360-day basis for the fixed swap rate and actual/actual day basis for the floating swap rate.
