March 29, 2005

To the Board of Directors and The President and Chief Executive Officer of the Metropolitan Washington Airports Authority

The Comprehensive Annual Financial Report (CAFR) of the Metropolitan Washington Airports Authority (the Authority) for the year ended December 31, 2004, is submitted herewith. The Office of Finance prepared this report. Responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the Authority. To the best of our knowledge and belief, this report fairly presents and fully discloses the Authority's financial position, results of operations, and cash flows in accordance with accounting principles generally accepted in the United States of America. It includes disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities included within the CAFR. The report of the independent auditors on the financial statements is included on page 13.

This report was prepared following the guidelines recommended by the Government Finance Officer's Association of the United States and Canada (GFOA). The GFOA awards Certificates of Achievement to those governments whose annual financial reports are judged to conform substantially with the high standards of public financial reporting, including accounting principles generally accepted in the United States of America, promulgated by the Governmental Accounting Standards Board (GASB).

The management of the Authority is responsible for establishing and maintaining an internal control structure that is designed to ensure that the assets of the Authority are safeguarded. In addition, as a recipient of federal financial assistance, the Authority is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with general and specific laws and regulations related to the Airport Improvement Program (AIP) and the Aviation Safety and Capacity Expansion Act.

The objectives of an internal control structure are to provide management with reasonable assurance that the resources are safeguarded against waste, loss, and misuse, and reliable data are recorded, maintained, and fairly disclosed in reports. The current internal controls provide the Authority with a solid base of reliable financial records from which the financial statements are prepared. These accounting controls ensure that accounting data are reliable and available to facilitate the preparation of financial statements on a timely basis. Inherent limitations should be recognized in considering the potential effectiveness of any system of internal control. The concept of reasonable assurance is based on the recognition that the cost of a system of internal control should not exceed the benefits derived and that the evaluation of those factors requires estimates and judgment by management.

The Authority's Office of Audit functions include oversight of the annual financial statement audit performed by external auditors as well as internal audits of internal controls. The Office of Audit conducts internal audits to provide the Authority's management and the Board of Directors (the Board) with reasonable assurance that, 1) risks are being managed; 2) management and delivery capacity are being maintained; 3) adequate control is being exercised; and, 4) appropriate results are being achieved. The Office of Audit operates under the direction of Valerie Holt, CPA, Vice President for Audit. This position has dual reporting responsibilities to the President and Chief Executive Officer and the Audit Committee of the Board. The Audit Committee of the Board has an important role in the oversight of the financial reporting to ensure the Authority's financial reports are reliable, consistent and of high quality.

As required by the Acts of the District of Columbia and the Commonwealth of Virginia, a firm of independent certified public accountants is retained each year to conduct an audit of the financial statements of the Authority in accordance with auditing standards generally accepted in the United States of America and to meet the requirements of the Federal Single Audit Act of 1984 (pursuant to OMB Circular A-133). The Authority selected the firms of PricewaterhouseCoopers LLP and Bert Smith and Company, respectively, to perform these audit services. The opinion of the financial statements is presented in the financial section of this report. The Single Audit Report and its opinion are presented under separate cover. Each year, the firms meet with the Audit Committee of the Board to review the results of the audit.

The CAFR is divided into three sections. The Introductory Section contains this Transmittal Letter which includes a narrative of the Authority's history and background and an organization chart listing the principal staff of the Authority. The Financial Section begins with the Report of Independent Auditors and is followed by the required supplementary information, Management's Discussion and Analysis (MD&A) of the financial condition of the Authority, followed by the Authority's Financial Statements and Notes to the Financial Statements. The Statistical Section includes selected financial and operational information, generally presented on a multi-year basis.

## **REPORTING ENTITY AND ITS SERVICES**

The Authority is a public body politic and corporate, created with the consent of the Congress of the United States by an Act of the District of Columbia and an Act of the Commonwealth of Virginia for the purpose of operating, maintaining, and improving Ronald Reagan Washington National Airport (Reagan National) and Washington Dulles International Airport (Washington Dulles) collectively, the Airports. The Airports had historically been managed by the Federal Aviation Administration (FAA) of the United States Department of Transportation. Pursuant to an agreement and Deed of Lease, effective June 7, 1987, the Airports were transferred by the U. S. Government to the Authority for an initial term of 50 years. On June 17, 2003, the Agreement and the Deed of Lease were extended 30 years to June 6, 2067.

The Authority is an independent interstate agency. A 13-member Board presently governs the Authority. Five members are appointed by the Governor of Virginia, three are appointed by the Mayor of the District of Columbia subject to confirmation by the Council of the District of Columbia, two are appointed by the Governor of Maryland, and three are appointed by the President of the United States with the advice and consent of the Senate. Directors serve staggered, six-year overlapping terms without compensation. They establish the Authority's policy and appoint the Chief Executive Officer. The Board annually elects a Chairman, Vice Chairman, and Secretary.

James E. Bennett, became the President and Chief Executive Officer of the Authority on May 3, 2003. In this position, Mr. Bennett plans and directs all programs and activities of the Authority, focusing on the future and

the development of long-term business strategies. Mr. Bennett was formerly the Executive Vice President and Chief Operating Officer of the Authority.

Margaret McKeough became the Executive Vice President and Chief Operating Officer of the Authority on April 1, 2004. In this position Ms. McKeough plans and directs the operations of the Authority, including airport management. Ms. McKeough was formerly the Vice-President for Business Administration of the Authority.

Christopher U. Browne is the Vice President and Airport Manager of Reagan National. Reagan National, which opened in 1941, is the oldest commercial airport serving the Washington, D.C. area and is located on 860 acres along the Potomac River in Arlington County, Virginia. Approximately three miles from downtown Washington, D.C., Reagan National is the Authority's principal domestic airport served by 26 airlines.

Keith W. Meurlin is the Vice President and Airport Manager of Washington Dulles. Washington Dulles, which opened in 1962, is situated on 11,000 acres in Fairfax and Loudoun Counties, Virginia. Washington Dulles is 26 miles from downtown Washington, D.C., and is accessible via a 17-mile dedicated dual-laned Access Road and Interstate Route 66. Washington Dulles is the Authority's international airport, served by 45 domestic and international airlines, providing a full range of domestic services with international service to Europe, Asia, South America, and Africa.

Mr. Meurlin recently announced his retirement, effective April 2, 2005. Mr. Browne has been named the Vice President and Airport Manager of Washington Dulles effective with Mr. Meurlin's retirement. Mr. Browne's replacement has not been named; however, Mr. Harlan Byers, Manager of Engineering and Maintenance at Reagan National will be acting in this position until a replacement is found.

## AUTHORITY OPERATIONS AND SERVICES

The Authority is self-supporting, using aircraft landing fees, fees from terminal and other rentals, and revenue from concessions to fund operating expenses. The Authority is not taxpayer-funded. The Capital Construction Program (CCP) is funded by Bonds issued by the Authority, federal and state grants, passenger facility charges (PFCs) and the Authority revenues. The Authority operates a two-airport system that provides domestic and international air service for the mid-Atlantic region. The organization consists of 1211 full and part-time employees in a structure that includes central administration, airports' management and operations, and public safety.

#### Airport Use Agreement and Premises Lease (the Agreement)

In February 1990, the Authority entered into a long-term agreement with the major airlines serving Reagan National and Washington Dulles. The Agreement provides the financial stability necessary for the Authority to access the capital markets to fund the CCP. The Agreement is for a term of 25 years, subject to cancellation rights by the Authority in 2004. In 2003, the Authority began a review of the Agreement to determine if changes could be made to improve the operations of the Airports. The Agreement continues a long history of a close working relationship between the Airlines and the Authority. The Agreement gives the Airlines interest in the positive financial performance of the Authority by sharing in the net remaining revenues (NRR) (See Note K).

### Capital Construction Program

The Authority initiated its CCP in 1988 (formerly referred to as the Capital Development Program) to expand, modernize and maintain the Airports. In addition to renovations and modernization of certain existing facilities, the CCP includes construction of the principal elements of the Master Plan for each Airport. The Master Plans establish the framework for the CCP that is necessary for the development of the Airports. Reagan National has undergone major renovations, including the opening in July 1997, of a new terminal, and providing more comfortable and efficient passenger facilities that are convenient to the Metrorail station. The Washington Dulles terminal has been expanded to double its former size and a midfield concourse has been built and expanded. At Washington Dulles, an automated people mover (APM) system will replace the existing mobile lounges which will move passengers between the Main Terminal and Concourses A, B and C. The FAA is conducting an environmental impact statement for the construction of two new runways to meet the need for increased capacity.

Based on expenditures to date and projected expenditures through 2011, Authority management currently estimates the cost of the 2001-2011 CCP at approximately \$3.97 billion. The major portion of any facilities development is expected to be financed with the proceeds of additional bonds to be issued under the Master Indenture of Trust (Master Indenture). The Authority also expects to use PFCs, federal and state grants, and the Authority's revenues to finance a portion of the costs.

## Air Service Development

The Authority's mission to develop the Airports is the driving force behind its continuing aggressive efforts of air service development. While the facility and service enhancement improvements at Reagan National and Washington Dulles are notable, the Authority's goal to prepare the dual airport system for the world of tomorrow would not be fulfilled without a concentrated effort to attract airline service for new domestic and international destinations.

For the period ended December 31, 2004, Reagan National experienced its highest passenger traffic levels since the twelve months ended September 2001, up 12.0% over 2003. General aviation activity is still prohibited at Reagan National; however, legislation was passed by Congress in 2003 requiring the Department of Homeland Security to develop a plan to bring back general aviation to the Airport.

The year 2004 brought positive developments in air service activity at Washington Dulles. In 2004, Washington Dulles concluded it's third consecutive 12-month period with record high passenger traffic. Washington Dulles' year-end passenger traffic growth rate of 35.1% easily outpaced the U.S. industry growth rate of 5.7%. Washington Dulles' year-end international and transborder passenger traffic rate of 15.8% outpaced the national average increase of 13.9%. Marketing efforts yielded significant increases in flights for 2004 with United Airlines (United) bringing its new Ted low-fare service to Washington Dulles in April of 2004. Independence Air, a new low fare airline, began operations at Washington Dulles in June of 2004 bringing significant passenger and operations activity to the Airport. Additional international activity added in 2004 was Alitalia to Milan and United to Costa Rica and Zurich.

## Other Operations

In 2004, Reagan National handled nearly 5,072 tons of cargo, primarily mail, a 12.2% decrease in total cargo weight over the prior year. The decrease is related to the federal mandate prohibiting individual pieces of airmail over 15 oz. in the cargo area of air carrier planes. In 2004, Washington Dulles handled over 307,564 tons of cargo. Total cargo weight increased 7.8% over the prior year.

The Authority publishes and distributes the Washington Flyer magazine to provide airport-related information and promote the Greater Washington region.

## The Authority's Internet Web Page

The Authority has an Internet web site offering a wide array of information to users, including financial information and operational statistics. Users can obtain direct access to the airlines serving the Airports, and flight arrival and departure information. The Authority's CAFR, Budget, Master Indenture, Debt Service Review, airline rates and charges and aviation statistics are posted on the web site. Since September 11, 2001, the Authority has posted monthly unaudited financial statements to include discussion of results, and other information for the Authority's bondholders and other interested parties. The Authority's financial information is available at www.mwaa.com/financial/.

### The Authority's Budget

The Authority's annual budget is a financial planning tool outlining the estimated revenues and expenses for the Airports at certain passenger levels. The Budget is not prepared according to generally accepted accounting principles (GAAP). The President and Chief Executive Officer submits the Authority's annual budget to the Board for approval. Budgetary controls and evaluations are affected by comparing actual interim and annual results with the budget, noting the actual level of passenger activities. The Authority conducts quarterly reviews to ensure compliance with the provisions of the annual operating budget approved by the Board. In keeping with the requirements of a proprietary fund, budgetary comparisons have not been included in the financial section of this report.

Operating revenues plus airline transfers reached 103.4% of budget expectations in 2004, while in 2003, operating revenues, airline transfers and federal compensation reached 99.9% of budget expectations. Operating expenses reached 96.0% of budget authorization in 2004, while in 2003, expenses reached 95.8% of budget authorization. The Authority continued its attention to reduce operating expenses in the 2004 Budget through a continued hiring freeze and strict procurement constraints.

	Budget	Actual <sup>1</sup>	As a Percentage of Budget
2004 Revenues	\$383,904,000	\$397,276,413	103.5%
2004 Expenses	\$212,800,000	\$204,211,273	96.0%
2003 Revenues	\$355,172,000	\$354,846,819	99.9%
2003 Expenses	\$204,833,900	\$196,282,824	95.8%

<sup>1</sup> As defined in the Agreement.

## **AUTHORITY'S ECONOMIC CONDITION**

#### Population and Employment

The Air Trade Area for the Authority is a subset of the Washington-Baltimore Consolidated Metropolitan Statistical Area and is comprised of the District of Columbia, five Maryland counties, 11 Virginia counties, five independent Virginia cities, and the West Virginia counties of Berkeley and Jefferson. Population in the region has consistently outpaced population growth in the United States. Over the last 12 years, the population grew at an annual compounded rate of 1.6%, compared to 1.1% for the United States. Within the region, the largest concentration of population is in the combined jurisdictions of Fairfax County, the cities of Fairfax and Falls Church, Virginia (17.1%); Montgomery County (14.2%); and Prince George's County, Maryland (15.7%); and the District of Columbia (9.1%). The 2003 population of the Air Trade Area was 5.8 million. The region has grown by almost 500,000 in the past five years and is expected to reach population of 6.3 million by 2008.

The Washington Metropolitan area has emerged as one of the Nation's major economic centers. Greater Washington's region is the 4th largest regional economy in the United States. The Washington Metropolitan area is one of the wealthiest regions in the country. According to the Greater Washington Initiative in its 2004 Greater Washington Regional Report, the area gross regional product surpasses \$288.3 billion annually, and the Greater Washington's economy grew by 23.2% (inflation adjusted) in the past five years, compared to the national growth of 14.7%.

For seven consecutive years, the Air Trade Area is the home of the largest number of Inc. 500 companies. The Washington D.C. region ranked as the second best area for entrepreneurship in 2003, according to Entrepreneur magazine. The region had an employment growth of 19,900 jobs in 2003. The number of net new jobs in 2004, through eleven months, more than doubled over 2003's total to roughly 70,000.

Government employment, including federal, state, and local governments, as a percent of the total employment in the region has declined to 21.4% in 2003 while the service sector increased to 45.6% by June 2003. The high percentage of service employment in the Washington Metropolitan area is related both to the presence of the federal government and the significant technology sector. The federal government is the largest single consumer of technology in the world and spent \$59 billion for Information Technology products and services nationwide in 2003. Federal procurement in the Greater Washington region was \$39.0 billion in 2003.

While population has grown over 16% in the last 10 years, employment increased faster than the labor force and consequently, unemployment declined steadily. In 2004, unemployment in the Washington Metropolitan area fell slightly to 2.9%, a decrease from 3.1% in 2003. According to the United States Department of Labor Bureau of Labor Statistics, the Air Trade Area was the only large metropolitan region with positive job growth for the second consecutive year.

## **Average Annual Unemployment Rate**

Year	Air Trade Area	United States	Year	Air Trade Area	United States
1995	4.2%	5.6%	2000	2.4%	4.0%
1996	3.9%	5.4%	2001	3.1%	4.8%
1997	3.7%	4.9%	2002	3.7%	5.8%
1998	3.2%	4.5%	2003	3.1%	6.0%
1999	2.6%	4.2%	2004	2.9% *	5.5%

\* Preliminary; subject to change.

Source: United States Department of Labor Bureau of Labor Statistics.

The Greater Washington region is an international community. There are 170 embassies in the region and 607 foreign-owned companies. The area's largest international organization, the World Bank, employs 10,589 staff and adds approximately \$2.0 billion to the area's economy. The Greater Washington area ranks as the 17th largest economy worldwide and ranks 5th compared to other major international regions such as the metropolitan areas of Paris, London and Tokyo. The Greater Washington region has approximately 19,000 Hispanic-owned businesses and 49,000 African American-owned businesses, ranking second only to New York.

The Greater Washington region is home to the National Institutes of Health, which has been a catalyst to the bioscience industry. The area is recognized nationally as a leader in human genome research. The region's bioscience workforce includes 17,000 public sector and 13,500 private sector employees.

The fundamentals of the Greater Washington region economy remain strong in light of the continued effects of the events of September 11, 2001 and geopolitical risks. According to the Greater Washington Initiative 2004 Regional Report, the Greater Washington region, as home to the U.S. government, has a recession-resistant economic base that has continued to grow as federal spending has increased.

## Long-Term Financial Planning

The Authority's long term financial planning includes the completion of certain approved capital expenditures and the accumulation of sufficient resources required to service the debt issued to finance these expenditures and to operate and maintain the airports. Under terms of the agreement, fees and charges paid by the Airlines are used along with other income from the Airports to service the debt issued to finance the construction program. The airlines pay operating and maintenance expenses, by airline cost center, in addition to debt service coverage equal to 125%.

The Authority's CCP, as discussed earlier, is expected to be \$3.7 billion in years 2001-2011. It is anticipated that the major portion of the facilities development will be financed with the proceeds of additional bonds to be issued under the Master Indenture. The Authority expects to issue \$876.0 million of additional bonds through 2009. The Authority also expects to use PFCs, federal and state grants, and the Authority's portion of NRR to finance a portion of these costs. The majority of the new scheduled construction activity will be at Washington Dulles.

The Authority also anticipates certain increases in airline activity. At Reagan National, an average annual increase of 2.0% in enplanements is expected from 2004-2013, with enplanement levels increasing 6.0% in 2005 then slowing to 0.7% per annum by the end of the period. The higher growth rates in the early years reflect Reagan National's recovery of enplanements to pre-September 11, 2001 levels in 2005.

At Washington Dulles, an average annual increase of 7.1% in enplanements is expected from 2004-2013, with enplanement levels estimated to increase by 16.0% in 2005, then slowing to 3.9% per annum through 2013. The growth at Washington Dulles is projected based on United continuing its hubbing operations, the continuance of Independence Air, and other low-fare carriers continuing to serve the Airport, and strong growth in international activity.

Since 1988, the Authority has participated in the AIP, the federal government's airport grant program. The AIP provides funding for airport development, airport planning and noise compatibility programs from the Airport and Airway Trust Fund. The AIP also provides both entitlement and discretionary grants for eligible projects. The Authority also receives grants from the Commonwealth of Virginia.

In 1990, Congress approved the Aviation Safety and Capacity Expansion Act, which authorized domestic airports to impose a PFC on enplaning passengers. In May 1991, the FAA issued the regulations for the use and reporting of PFCs. PFCs may be used for airport projects which meet at least one of the following criteria: preserve or enhance safety, security, or capacity of the national air transportation system; reduce noise or mitigate noise impacts resulting from an airport; or furnish opportunities for enhanced competition between or among carriers.

The Authority applied for, and was granted, permission to begin collecting a \$3.00 PFC effective November 1993 at Reagan National and January 1994 at Washington Dulles. The Authority applied for, and received in February 2001, the approval to increase the PFC collection from \$3.00 to \$4.50, effective May 2001. In accordance with the regulations, based on the approval date from the FAA and continuing through the PFC collection period, the Authority's share of AIP entitlement grants was reduced by 75 percent.

## **OTHER INFORMATION**

## Recognition of Awards and Achievement

The GFOA awarded the Authority a Certificate of Achievement for Excellence in Financial Reporting (Certificate of Achievement) for its CAFR for the year ended December 31, 2003 (page 12). The Certificate of Achievement is the highest form of recognition for excellence in state and local government reporting. This was the fifteenth consecutive year the Authority has received this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized financial report whose

contents conform to specific program standards. Such a CAFR must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and are submitting this 2004 CAFR to GFOA for consideration.

The Authority has also received the GFOA's Award for Distinguished Budget Presentation for many years since 1991.

## Acknowledgments

In closing, I would like to thank the President and Chief Executive Officer and the Board of Directors for their leadership and support in planning and conducting the financial operations of the Authority. Special thanks are directed to Anne M. Field, the Controller for the Authority, for the preparation of the CAFR. Anne has received an award for the preparation of the CAFR every year since joining the Authority. She deserves a great deal of credit for its quality. Additional staff that deserve recognition for their efforts in completing the CAFR are Mark Tune, Peggy Thompson L'Hommedieu, Valerie Thompson, Teri Arnold, Nancy Edwards, David Tucker, Paula Simms, Leon Clark, Kris Wenneson, Susan Abeles and Diane Lary as well as all the personnel within the Office of Finance.

Sym thegen

Lynn Hampton, CPA Vice President and Chief Financial Officer

## Certificate of Achievement for Excellence in Financial Reporting

Presented to Metropolitan Washington

Airports Authority, District of Columbia

For its Comprehensive Annual **Financial Report** for the Fiscal Year Ended December 31, 2003

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

aneg L. Zielke President

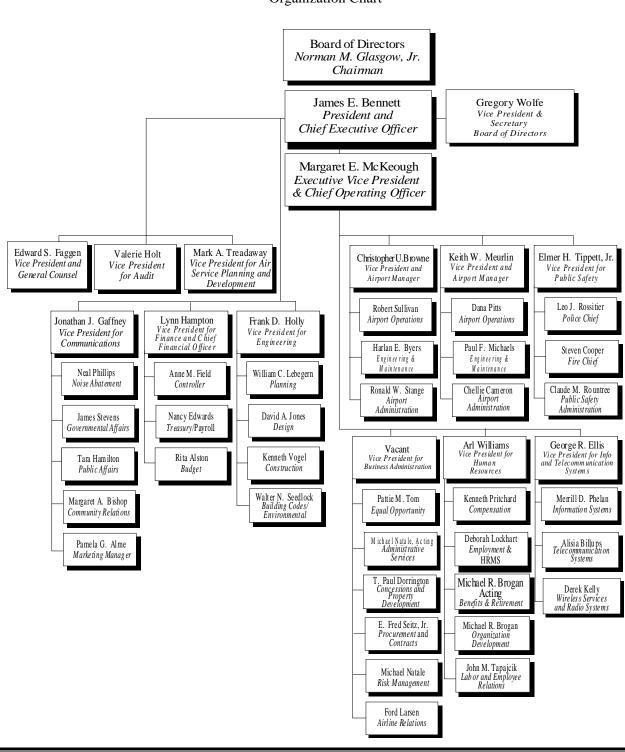

Executive Director

## **Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Metropolitan Washington Airports Authority for its comprehensive annual financial report for the year ended December 31, 2003.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. The report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

## MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)

## **INTRODUCTION**

The following discussion and analysis of the financial performance and activity of the Metropolitan Washington Airports Authority (the Authority) is to provide an introduction and understanding of the basic financial statements of the Authority for the year ended December 31, 2004 with selected comparative information for the years ended December 31, 2003 and December 31, 2002. This discussion has been prepared by the management and is unaudited; and should be read in conjunction with the financial statements, and the notes thereto, which follow this section.

## Using the Financial Statements

The Authority's financial report includes three financial statements: the Statements of Net Assets, the Statements of Revenues, Expenses and Changes in Net Assets and the Statements of Cash Flows. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by Governmental Accounting Standards Board (GASB) principles. For the year ended December 31, 2004, the Authority early implemented GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries. The Authority has allocated funding in 2005 for the early implementation of GASB Statement No. 43, Financial Reporting for Post-employment Benefit Plans Other Than Pension Plans and GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions. A trust was established in February 2005 to account for the retirees' post-employment benefits other than pensions.

The Statements of Net Assets depict the Authority's financial position as of one point in time, normally December 31, and include all assets and liabilities of the Authority. The Statements of Net Assets demonstrate that the Authority's assets equal liabilities plus net assets. Net assets represent the residual interest in the Authority's assets after liabilities are deducted. Net assets are displayed in three components- invested in capital assets; net of related debt; restricted, and unrestricted.

The Statements of Revenues, Expenses and Changes in Net Assets report total operating revenues, operating expenses, non-operating revenues and expenses and other changes in net assets as of the end of a fiscal period normally the year ended December 31. Revenues and expenses are categorized as either operating or non-operating based upon management's policy as established in accordance with definitions set forth by GASB. Significant recurring sources of the Authority's revenues, including passenger facility charges (PFCs), investment income and federal, state and local grants, are reported as non-operating revenues. The Authority's interest expense is reported as non-operating expense.

The Statements of Cash Flows present information showing how the Authority's cash and cash equivalents position changed during the fiscal year. The Statements of Cash Flows classify cash receipts and cash payments as resulting from operating activities, capital and related financing activities and investing activities.

#### The Authority's Activity Highlights

The Authority has activity-based revenues which, in part, include parking, rental car, landing fees, international arrival fees and passenger conveyance fees. The terrorist attacks that occurred in New York, Pennsylvania and Washington, D.C. on September 11, 2001, resulted in reduced airport activity and consequently had a significant effect on the financial performance of the Authority. The aviation industry began to recover from the effects of the terrorist acts in 2002. In the spring of 2003, the conflict in Iraq and Afghanistan, and the occurrence of Sudden Acute Respiratory Syndrome (SARS), initially in Asia then spreading to North America, had a profound impact on international flight activity at Washington Dulles International Airport (Washington Dulles). As the year-end 2003 approached, the monthly activity levels at Washington Dulles and Ronald Reagan Washington National (Reagan National)– (collectively, the Airports) rebounded. For the full year 2004, passenger activity at the Airports exceeded passenger activity in all previous years. Independence Air, a new low-fare airline, began operations at Washington Dulles in June of 2004 adding significant passenger and operations activity at the Airport. This section includes a discussion of activity in order to better understand its affect on the financial performance of the Authority.

Enplanements at Reagan National for the 12 months of 2004 were 7,957,037 compared to 7,106,355 for the year 2003, an increase of 12.0%. General aviation activity of non-scheduled, privately owned aircraft was prohibited at Reagan National after the events of September 11, 2001 and the prohibition continues today. Total enplanements at Washington Dulles for the 12 months of 2004 were 11,428,867 compared to 8,458,687 in 2003, a 35.1% increase. International enplanements for the 12 months of 2004 were 2,313,662 compared to 1,997,848 in 2003, a 15.8% increase.

#### **Enplanements and Operations Activity for 2002 to 2004**

	2004	2003	2002
Enplanements			
Washington Dulles Domestic	9,115,205	6,460,839	6,571,484
Washington Dulles International	2,313,662	1,997,848	2,024,482
Reagan National	7,957,037	7,106,355	6,465,387
Operations			
Washington Dulles	469,634	335,397	372,636
Reagan National	268,556	250,802	215,691

In comparing Reagan National and Washington Dulles to the North American aviation industry, the Airports exceeded industry trends. In 2004, domestic passenger traffic exceeded trends by 7.2% at Reagan National. In 2004, domestic traffic at Washington Dulles exceeded the trends by 30.3% in domestic passenger traffic and 1.9% in international passenger traffic.

Enplanements Growth	MWAA	North America	Difference
Washington Dulles Domestic	35.1%	4.8%	30.3%
Washington Dulles International	15.8%	13.9%	1.9%
Reagan National	12.0%	4.8%	7.2%

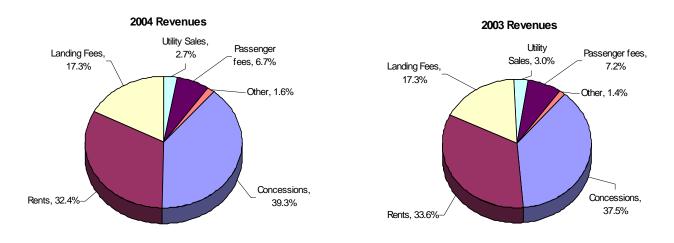

At Reagan National, by year-end 2004, daily departures increased to 476 from 467 departures and includes an increase of 22 daily air carrier departures and a decrease of 13 daily regional departures. At Washington Dulles, by year-end 2004, daily domestic air carrier departures of 671 increased from 322 in 2003. International weekly departures decreased from 310 in 2003 to 309 in 2004, and are relatively stable.

## Financial Highlights

The financial results in 2004 reflect the recovery from the events of September 11, 2001, and the resulting passenger and airline activity changes. The majority of the operating revenues at the Airports are directly related to the number of passengers and aircraft operations. Operating revenues in 2004 of \$442.3 million were \$52.6 million greater than operating revenues in 2003, and reflect a turnaround in airline activity at the Airports. The Authority's revenues are derived primarily from rents and charges for the use of the Airport's facilities, including landing fees received from both signatory and non-signatory airlines using the Airports, and concession contracts at the Airports including off-airport rental car operations. Revenues from concessions historically have accounted for a substantial portion of the Authority's revenues. The Airport Use Agreement and Premises Lease (the Agreement) requires the Signatory Airlines to pay actual costs while the majority of concessionaires pay a percentage of revenue or a minimum annual guarantee payment.

In 2004, landing fees of \$76.3 million increased \$8.6 million, a 12.8% increase over 2003. This increase is related to the cost of managing increased aircraft parking positions at Washington Dulles and the cost of airfield perimeter fencing at Reagan National. Rents revenue increased \$12.6 million, a 9.6% increase over 2003, reflecting the recovery of the cost of the new ticket counter and baggage areas at Washington Dulles and additional rental areas at Reagan National. Utility sales revenue increased as a result of higher gas and electric fees. Passenger fees now include fees paid by the Transportation Security Administration (TSA). In 2002 and 2003, the Authority increased the airline share of Net Remaining Revenue (NRR) in the terminal cost centers at Reagan National to maintain airline rental rates near prior year rates until the recovery of airline activity at Reagan National. In 2004, NRR was shared according to the Agreement. Passenger fees at Washington Dulles increased \$1.6 million, a 5.7% increase over 2003, reflecting the increased cost of operations of the mobile lounges and the cost of busing to the temporary Concourse G.

	2004	2003		Percent of
	Revenue	Revenue	Increase	Increase
<b>Classifications</b>	Amount	Amount	from 2003	from 2003
Concessions	\$ 173,962,671	\$ 146,095,903	\$ 27,866,768	19.1%
Rents	143,389,783	130,802,693	12,587,090	9.6%

Total	\$ 442,286,071	<u>\$ 389,638,253</u>	<u>\$ 52,647,818</u>	13.5%

The following is a graphic illustration of operating revenues by source for the years ended December 31, 2004 and 2003:

## **Concession Revenue**

In 2004, concession revenue increased \$27.9 million or 19.1% from 2003, and as a percent of total revenues, increased to 39.3% from 37.5% in 2003. Automobile parking revenue and rental car revenue represented 73.4% of concession revenue and 28.9% of total revenue. The average daily occupancy of the new structured parking garages at Washington Dulles increased from 31.5% in December of 2003 to 54.5% in December of 2004. There are 25,223 parking spaces at Washington Dulles with 2,516 hourly, 8,325 daily, 1,427 valet and 12,955 economy spaces. The parking garages at Reagan National had average occupancy of 75.9%. There are 7,776 parking spaces at Reagan National with 455 hourly, 4,878 daily and 2,443 economy spaces. Average occupancy for all public parking at Reagan National was 81.9%. The following table details concession revenues by major category for the past two years.

## Concession Revenues (in thousands)

				Increase	Percent of
			(]	Decrease)	Increase
	 2004	 2003	f	rom 2003	(Decrease) from 2003
Parking	\$ 99,681.8	\$ 79,789.8	\$	19,892.0	24.9%

All other	 9,824.8	 8,281.5		1,543.3	18.6%
Total	\$ 173,962.7	\$ 146,095.9	\$	27,866.8	19.1%

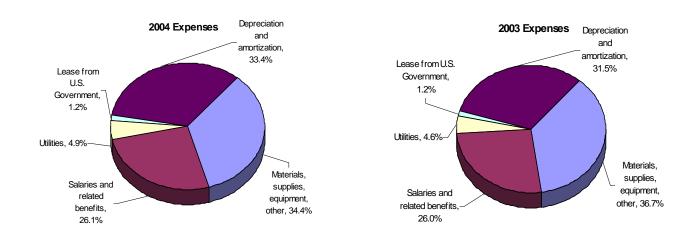

## **Operating Expense**

Operating expenses for fiscal year ended December 31, 2004, increased \$13.0 million or 3.6% over 2003. Depreciation and amortization expense of \$126.2 million increased \$11.2 million over 2003, and accounted for 86.5% of the increase in operating expenses. Depreciation and amortization expense increased 9.8% primarily from the capitalization of projects completed in 2004. Operating expenses, other than security related expenditures, at both Airports were considerably reduced immediately following September 11, 2001. A hiring freeze implemented in September of 2001 continued through 2004. All operational expenses are carefully reviewed during the budget development and procurement processes.

After September 11, 2001, the Airports were required by the federal government to provide increased police presence. The Authority contracted in 2002 and 2003 with the Virginia State Police, Arlington County Police and Loudoun County Police to provide supplemental police services. The third party security service engagement ended in September of 2003. The Authority's public safety personnel have been providing the required additional security since that time. The costs of the contracted police service in 2003 and 2002 were \$4.1 million and \$6.0 million, respectively. The increases in salaries and related benefits for 2004 and 2003 were principally related to the increased security needs for additional public safety personnel and related overtime. Utility costs increased because of higher utility rates.

Increased claims in the insurance market since September 11, 2001, resulted in quotes for insurance that were significantly higher than in prior years. The Authority responded to the increase in insurance cost by negotiating higher retention levels, while increasing related insurance reserves. General liability, property insurance and workers compensation insurance costs in 2004, 2003 and 2002 were \$5.6 million, \$5.3 million and \$3.3 million, respectively. The claims paid directly by the Authority also increased over the three-year period. Claims paid in 2004, 2003, and 2002 were \$2.0 million, \$2.6 million, and \$2.2 million, respectively.

Expense Classification	2004	2003	Increase (Decrease) from 2003	Percent of Increase ( <u>Decrease</u> ) from 2003
Materials, supplies, equipment,				
contract services and other	\$130,127,540	\$134,105,363	\$(3,977,823)	(3.0%)
Salaries and related benefits	98,858,597	95,192,233	3,666,364	3.9%
Utilities	18,754,511	16,754,386	2,000,125	11.9%
Lease from United States				
Government	4,375,347	4,303,764	71,583	1.7%
Depreciation and amortization	126,177,767	114,950,487	11,227,280	9.8%
Total	\$378,293,762	\$365,306,233	\$ 12,987,529	3.6%

The following is a graphic illustration of the total operating expenses by source for the years ended December 31, 2004 and 2003:

#### Changes in Net Assets

Fiscal year 2004 operating income was \$64.0 million, an increase of \$39.7 million compared to 2003. The operating results of 2004 reflect both the increased activity at the Airports and the Authority's efforts to maintain conservative airline rates and charges and increase concession revenues. The Authority's decision to waive certain concession rents and landing fees and offset expenses with the Authority's share of NRR resulted in reduced operating income in 2003 and 2002. In 2004, NRR was shared in accordance with the Agreement.

In 2004, non-operating revenues of \$12.0 million were \$0.5 million higher than in 2003, principally because of higher interest rates earned on the Authority's investment portfolio offset by a smaller gain on an interest rate swap transaction. The swap transaction represents risk management activity taken in August of 2001 to assure that the interest on bonds issued to refund the Series 1992A Bonds would not exceed interest rate of 5.0%. The change in the market value of the swap in 2004 was a gain of \$1.6 million compared to a gain of \$5.6 million in 2003. In January 2004, the Authority entered into a swap transaction to hedge against rising interest rates. In August 2004, the Authority was able to achieve its interest rates savings goal with the related Series 2004D Bonds, and therefore, terminated this swap realizing a loss of \$3.7 million. In 2002, the Authority received a federal payment of \$3.1 million as reimbursement for certain security related expenses incurred from September 11, 2001, through May 2002.

In 2004, non-operating expenses of \$94.6 million decreased by \$2.2 million from 2003, as a result of lower interest rates achieved through the refunding of certain outstanding debt in the Authority's debt portfolio. (See Note J).

Capital contributions include PFCs, federal and state grants and other capital property acquired. PFCs revenue in 2004 of \$76.1 million was \$17.6 million higher than in 2003 reflecting the increased passenger activity

at the Airports. PFCs are imposed when an airline ticket is purchased and do not mirror the enplanement activity of an airport. Federal and state grants of \$28.7 million were \$14.3 million more than 2003 grant revenues reflecting the increased grant eligible airfield activity at Washington Dulles. PFCs and federal and state grants provide partial funding for certain capital construction projects.

In 2003, the Authority recorded \$6.0 million in capital contributions in recognition of a portion of the Aircraft Haul Road and a portion of the Museum Access Road built by the Smithsonian and the Virginia Department of Transportation during the construction of the Steven F. Udva-Hazy Center (the Center) which is located on 176.5 acres of Washington Dulles. The title to these access ways vested with the Authority upon completion of the Center and acceptance by the Authority. The Authority is required to maintain these roadways and allow the Center patrons and invitees ingress to and egress from the Center.

The change in net assets is an indicator of whether the overall fiscal condition of the Authority has improved or declined during the year. The change in net assets for the years ended December 31, 2004 and 2003 was an increase of \$86.2 million and an increase of \$17.9 million, respectively. In 2002 the change in net assets was a decrease of \$8.4 million. Without the loss on the market value of the swap in 2002, net assets would have increased \$17.7 million.

	2004	2003	2002

The following represents a summary of the Statements of Revenues, Expenses and Changes in Net Assets:

### Statements of Net Assets

The Statements of Net Assets present the financial position of the Authority at the end of the fiscal year. The Statements include all assets and liabilities of the Authority. Net assets are the difference between total assets and total liabilities and are an indicator of the current fiscal health of the Authority. A summarized comparison of the Authority's assets, liabilities and net assets on December 31, 2004, 2003 and 2002 is as follows:

Assets	2004	2003	2002
Current assets	\$ 510,421,819	\$ 449,659,857	\$ 449,320,863
Non-current assets			
Capital assets, net	2,997,283,774	2,744,063,040	2,553,672,786
Other non-current assets	224,960,011	234,145,211	191,793,059
Total Assets	3,732,665,604	3,427,868,108	3,194,786,708
Liabilities			
Current liabilities	183,448,198	162,645,717	160,109,417
Non-current liabilities			
Long-term debt outstanding and			
Other restricted	2,807,403,687	2,608,973,128	2,391,468,324
Other non-current liabilities, unrestricted	654,446	1,300,939	6,174,603
Total Liabilities	2,991,506,331	2,772,919,784	2,557,752,344
Net Assets			
Invested in capital assets, net of debt	344,583,615	428,497,669	418,037,820
Restricted	170,526,342	36,158,318	34,646,503
Unrestricted	226,049,316	190,292,337	184,350,041
Total Net Assets	<u>\$ 741,159,273</u>	<u>\$ 654,948,324</u>	<u>\$ 637,034,364</u>

For the year ended December 31, 2004 and in its seventeenth full year of operations, the Authority's financial position remained strong with total assets of \$3.7 billion and liabilities of \$3.0 billion. Current assets increased by \$60.8 million from 2003. Since September 11, 2001, the Authority has maintained five months of its operating cash portfolio in securities that mature within six months to provide extra liquidity. At December 31, 2004, the Authority had \$3.0 billion in capital assets (net of depreciation), an increase of \$253.2 million from December 31, 2003.

For the year ended December 31, 2004, the Authority's accounts receivable included \$4.0 million in pre-petition debt and certain post-petition administrative claims against United Airlines (United). On March 19, 2004, the bankruptcy court approved United's assumption of leases and its plan to cure all defaults at the Airports. In September 2004, US Airways filed for bankruptcy protection for the second time. The Authority's accounts receivable for the year ended December 31, 2004, included \$1.1 million in pre-petition debt owed to the Authority by US Airways. The Authority has not established a reserve for United's or US Airways' pre-petition debt. United and US Airways are current on their post-bankruptcy obligations. The Authority's expectation regarding United and US Airways is influenced by the Authority's experience with other large airline bankruptcies. In the cases of Eastern Airlines, Pan American and most recently TWA, the airlines cured their defaults in order to assume and then transfer their leasehold assets to other carriers as part of their liquidation. Based upon its experience and its

judgment of the posture of United and US Airways, the Authority has concluded that reserves need not be established.

Current liabilities increased by \$20.8 million, principally from a \$16.1 million increase in unrestricted and restricted accounts payable related to increased construction activity and an increase of \$2.9 million in the current portion of bonds payable.

During 2004, the Authority issued five series of bonds: April 2004, \$250 million Series 2004B Revenue Bonds and \$97.73 million Series 2004C-1 Revenue Refunding Bonds; in July 2004, \$111.545 million Series 2004C-2 Revenue Refunding Bonds; in August 2004, \$13.6 million Series 2004A Revenue Refunding Bonds and \$218.855 Series 2004D Revenue Refunding Bonds. The Authority estimates that the net present value savings of the Series 2004 Revenue and Refunding Bonds is \$28.2 million. In addition to refunding certain outstanding debt, the Series 2004 Revenue Bonds collectively provide additional funding for capital improvements at Washington Dulles and Reagan National. In January 2004, the Authority issued an interest rate swap in the notional amount of \$227.9 million to hedge potential interest rate increases and synthetically refund a portion of the outstanding Series 1994 bonds. In August 2004, the Authority unwound the swap because it was able to achieve interest rate savings greater than the targeted savings. As of the year ended December 31, 2004, the Authority had outstanding \$150.0 million Commercial Paper Series One and \$187.7 million PFC Notes. Additionally, the Authority had \$150.0 million authorized but not issued Commercial Paper Series One available for construction needs. As a result of these transactions, as well as principal payments of \$56.1 million, long-term debt outstanding increased by \$198.6 million and short-term CP Notes and PFC Notes outstanding of \$337.7 remained unchanged.

Net assets, which represent the residual interest in the Authority's assets after liabilities are deducted, were \$741.2 million on December 31, 2004, an increase of \$86.2 million from 2003 and a \$104.1 million increase from 2002. The account "Invested in Capital Assets, Net of Debt" decreased by \$83.9 million to \$344.6 million because the increase in total liabilities related to the Capital Construction Program (CCP) exceeded the increase in the assets in the CCP. This was caused by the decrease in unspent construction proceeds at December 31, 2004, as compared to December 31, 2003. As of December 31, 2003, \$170.0 million in unspent proceeds were reclassified to "Restricted Assets" to offset the assets still available from the bond proceeds. The restricted and unrestricted remaining net assets are derived from the Authority operations since the Authority's inception in 1987, as well as grant and PFC collections. The 2004 restricted net assets of \$170.5 million are subject to external restrictions on how they may be used under the Master Indenture of Trust (Master Indenture) and federal regulations. A debt service reserve of \$172.3 million, maintained in accounts held by the Authority's Trustee, offset by the corresponding debt, is included in Restricted Net Assets. The remaining 2004 unrestricted assets of \$226.0 million, an increase of \$35.8 million from 2003, may be used to meet any of the Authority's ongoing operations subject to approval by the Board.

#### Cash and Investment Management

The Authority's cash and cash equivalents decreased \$104.4 million to \$184.7 million for the year ended December 31, 2004, from \$289.1 million for the year ended December 31, 2003, as a result of increased investment activity during the year. Cash and cash equivalents with an original maturity of three months or less are considered highly liquid investments. Unrestricted investments increased by \$90.9 million from 2003 and restricted investments increased by \$90.9 million from 2003 and restricted investments increased by \$64.8 million.

The following summary shows the major sources and use of cash:

	2004	2003
Cash received from operations	\$ 442,774,218	\$354,418,565
Cash expended from operations	(234,503,850)	(226,763,638)
Net cash provided by operations	208,270,368	127,654,927
Net cash provided (used) in capital and related financing activities	(184,865,715)	(112,479,002)
Net cash provided (used) by investing activities	(127,821,507)	81,053,185
Net cash used by capital financing and investing activities	312,687,222	(31,425,817)
Net increase (decrease) in cash and cash equivalents	(104,416,854)	96,229,110
Cash and cash equivalents, beginning of year	289,086,884	192,857,774
Cash and cash equivalents, end of year	<u>\$184,670,030</u>	\$289,086,884

Cash temporarily idle during 2004 was invested in demand deposits, certificates of deposit, commercial paper, United States Government and agency obligations, mutual funds, repurchase agreements collateralized by the United States Government or agency obligations, and other permitted investments as listed in the Master Indenture for the Authority's outstanding bonds. During 2004, the Authority's operating account average portfolio balance was \$197.6 million and the average yield on investments was 1.41%. The capital funds are held by an agent for the Trustee but managed by the Authority. For 2004, the capital funds had an average portfolio balance of \$335.0 million and an average yield of 2.19%.

Certain Authority funds that will be used for bond requirements (See Note E) and capital projects are invested in long-term instruments. An annual cash flow projection for capital projects is developed for all bond proceeds and investments are matched to maximize investment income while ensuring cash is available for capital project expenses. All investments must be made following the investment policy that was adopted by the Authority's Board. An investment committee meets quarterly to review the portfolios for compliance with the investment policy (See Note B).

## Capital Construction

During 2004, the Authority expended \$349.3 million in its ongoing CCP compared to an original budget of \$349.9 million. The Authority capitalized \$242.5 million in projects in 2004, including the Airside Walkback Tunnel at Washington Dulles. Projects at Washington Dulles, which began or continued in 2004, and were scheduled for completion in 2005, or beyond, include the security mezzanine, the automated people mover (APM) and related stations, and renovation of the final section of the original Main Terminal. Average monthly capital construction spending in 2004 was approximately \$29.1 million (See Note F).

## Capital Financing and Debt Management

The Authority's long-term uninsured bonds are rated "AA-" by Fitch, "Aa3" by Moody's, and "A+" by Standard & Poor's Rating Services (S&P). Following the events of September 11, 2001, Moody's placed the Authority's rating on "Watch List" effective September 18, 2001 and on February 15, 2002, removed the Authority from the "Watch List" and affirmed the Authority's "Aa3" rating with negative outlook. In April 2004, Moody's confirmed the Authority rating and changed its outlook to stable. S&P placed the Authority's debt on "Credit Watch Negative" effective September 20, 2001 and downgraded the Authority to "A+" with "Stable Outlook," effective

February 28, 2002. Fitch placed the Authority's debt on "Rating Watch Negative" effective October 5, 2001, and on May 15, 2002, confirmed the Authority's "AA-" rating with outlook "Stable." As of December 31, 2004, the Authority has \$2.567 billion outstanding Airport System Revenue Bonds, \$150.0 million in outstanding Commercial Paper Series One and \$187.7 million in PFC notes (See Note J). Of the \$2.567 billion in outstanding Senior Bonds, \$2.315 billion is insured and \$252.4 million is uninsured. The insured debt is rated "AAA" by S&P and Fitch, and "Aaa" by Moody's.

The Authority is financing its construction program through a combination of revenues, entitlement, and discretionary grants received from the FAA, state grants, PFCs, and revenue bonds. Long-term debt is the principal source of funding for the CCP. The Authority, through its Master Indenture, has agreed to maintain a debt service coverage of not less than 125%. Debt service coverage is calculated based on a formula included in the Master Indenture and the Agreement with the Airlines. Historically, the Authority has maintained a coverage ratio significantly higher than its requirement. During 2004 and 2003, respectively, the Authority's debt service coverage was 1.68 and 1.41. The increase in coverage in 2004 is related to the increased concession revenue at Washington Dulles.

## Contacting the Authority's Financial Management

The financial report is designed to provide the Authority's Board, management, investors, creditors and customers with a general view of the Authority's finances and to demonstrate the Authority's accountability for the funds it receives and expends. For additional information about this report, or for additional financial information, please contact Lynn Hampton, Vice President and Chief Financial Officer, 1 Aviation Circle, Washington, DC, 20001-6000, or email <u>BondholdersInformation@mwaa.com</u>.

## NOTES TO FINANCIAL STATEMENTS

## A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity

The Metropolitan Washington Airports Authority (the Authority) is an independent interstate agency created by the Commonwealth of Virginia and the District of Columbia with the consent of the United States Congress. The Commonwealth of Virginia and the District of Columbia enacted essentially identical legislation creating the Authority for the purpose of operating Ronald Reagan Washington National (Reagan National) and Washington Dulles International Airport (Washington Dulles)— collectively the Airports. The Authority is governed by a Board of Directors (Board) with members from the Commonwealth of Virginia, the District of Columbia, the State of Maryland, and three members appointed by the President of the United States.

On June 7, 1987, Reagan National's and Washington Dulles' properties were transferred to the Authority under a long-term lease authorized by the Metropolitan Washington Airports Act of 1986, Title VI of Public Law 99-500 (See Note M). All personal property was transferred to the Authority without condition. Prior to the transfer, the Airports were operated by the Federal Aviation Administration (FAA) of the United States Department of Transportation.

Only the accounts of the Authority are included in the reporting entity. There are no U.S. government agency finances that should be considered for inclusion in the Authority's financial reporting entity.

## Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis. The Authority reports as a Business Type Activity, as defined by the Governmental Accounting Standards Board (GASB). Business Type Activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

The Authority's activities are accounted for similar to those often found in the private sector using the flow of an economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net assets, revenues, and expenses are accounted for through a single enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred. Current assets include cash and amounts convertible to cash during the next normal operating cycle, or one year. Current liabilities include those obligations to be liquidated with current assets.

Revenues from airlines, concessions, rental cars and parking are reported as operating revenues. Capital, grants, financing or investing related transactions are reported as non-operating revenues. All expenses related to operating the Authority are reported as operating expenses. Interest expense and financing costs are reported as non-operating.

#### Net Assets

Net assets represent the residual interest in the Authority's assets after liabilities are deducted and consists of three sections: Invested in capital assets, net of related debt; Restricted; and Unrestricted. Net assets invested in capital assets, net of related debt includes capital assets, restricted and unrestricted, net of accumulated depreciation, reduced by outstanding debt attributable to acquisition. Net assets are reported as restricted when constraints are imposed by third parties or enabling legislation. The Authority's restricted assets are expendable. All other net assets are unrestricted.

## Proprietary Accounting and Financial Reporting

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the Authority follows all GASB pronouncements issued on, before, or after November 30, 1989, as well as all Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principal Board Opinions and Accounting Research Bulletins issued on, before, or after November 30, 1989, unless they contradict GASB guidance.

# Budgeting Requirements

The Authority's annual budgeting process is a financial planning tool used to establish the estimated revenues and expenditures for both Airports. The Authority's annual budget is not prepared in accordance with generally accepted accounting principles (GAAP). In keeping with the requirements of a proprietary fund, budget comparisons have not been included in the financial section of this report.

## Revenue Recognition

Rentals and concession fees are generated from airlines, parking structures and lots, food, rental cars, fixed base operators, and other commercial tenants. Leases with the airlines are based on full cost recovery, through rates and charges as described below. Other leases are for terms from one to 15 years and generally require rentals based on the volume of business, with specified minimum rentals. Rental revenue is recognized over the life of the respective leases, and concession revenue is recognized partially based on reported concession revenue and partially based on minimum rental guarantee. Rental revenue and concession revenue are recognized as operating revenues on the Statements of Revenues, Expenses and Changes in Net Assets.

Landing fees are principally generated from scheduled airlines and non-scheduled commercial aviation and are based on the landed weight of aircraft. The scheduled airline fee structure is determined annually based on full cost recovery pursuant to an agreement between the Authority and the Signatory Airlines. Landing fees are recognized as part of operating revenues when airline related facilities are utilized.

Several airlines represent concentrations of revenues for the Authority. At Reagan National, US Airways, Delta Air Lines, and American Airlines comprise approximately 72.3% of annual airline revenues. At Washington Dulles, United, Delta Air Lines and Independence Air comprise approximately 70.2% of annual

airline revenues. These airlines combined represent approximately 71.1% of the total annual airline revenues for the Authority. Actual airline revenues for 2004 represent approximately 51.8% of the Authority's total revenues.

## Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash on hand, demand deposits, certificates of deposit, commercial paper, United States Government and agency obligations, mutual funds, and repurchase agreements collateralized by United States Government or agency obligations with an original maturity of three months or less, including restricted assets.

#### Investments

Investments with an original maturity greater than one year are recorded at their fair value with all investment income, including changes in the fair value of investments, reported as investment income in the financial statements. Investments with an original maturity of less than one year are carried at amortized cost which approximates fair value.

Investments consist of certificates of deposit, commercial paper, United States Government and agency obligations, interest rate swaps, and repurchase agreements collateralized by United States Government or agency obligations, with an original maturity greater than three months.

#### Swaps

The Authority enters into interest rate swap agreements to modify interest rates on outstanding debt. The Swaps are recognized at fair value on the Statements of Net Assets in investments. Changes in the fair value of the Swaps are recorded as unrealized gains or losses on the Statements of Revenues, Expenses and Changes in Net Assets. In addition, net interest expenditures are also recorded in the Statements of Revenues, Expenses and Changes in Net Assets.

## Inventory and Prepaid Items

Inventory consists of spare parts and is stated at the lower of cost or market value, using the first-in, first-out method. Inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the financial statements.

## Capital Assets

Personal property, the ownership of which was transferred from the United States Government to the Authority on June 7, 1987, is recorded at fair value at the date of transfer. Assets acquired subsequent to the transfer are stated at historical cost and include the expense of federal grants to construct and improve the facilities of the Authority. The costs for property and facilities include net interest expense incurred from

the date of issuance of the debt to finance construction until the completion of the capital project (See Notes F and J). Tenants have funded construction and improvements of airport facilities from their own working capital. Under agreements with the Authority, the property reverts to the Authority upon termination or expiration of the Airport Use Agreement and Premises Lease (the Agreement). Terms range from 15 to 40 years. These assets obtained by the Authority are recorded at fair market value as of date of transfer. Major improvements and replacements of property are capitalized. Maintenance, repairs, and minor improvements and replacements are expensed as incurred.

Provision for depreciation has been calculated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives and corresponding capitalization thresholds are as follows:

		Threshold
Equipment	5-7 years	\$10,000
Motor Vehicles	3-5 years	10,000
Buildings	20-40 years	25,000
Systems and Structures	10-40 years	25,000

## Impaired Capital Assets

For the year ended December 31, 2004, the Authority early implemented GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries. Capital assets that have potential for meeting the definition of impairment are identified and tested for impairment. Permanently impaired capital assets that will continue to be used by the Authority are written down to the measured impaired value. The carrying amount of impaired capital assets that are idle are disclosed in the notes to the financial statements and impaired capital assets that are no longer used by the Authority are reported at the lower of carrying value or fair value.

## Bond Issuance Costs

Bond issuance costs represent expenses incurred in the process of issuing bonds and are amortized over the life of the related bond issue, using the interest method.

## Long-Term Debt Refundings

The Authority periodically refunds its debt. The difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense over the life of the old or new debt, whichever is shorter. The amount deferred is reported as a deduction from or an addition to the new debt liability.

## **Compensated Absences**

The Authority employees are granted vacation at rates of 13 to 30 days per year, depending on their length of employment, and may accumulate up to a maximum of 30 days. Upon termination, employees are paid for any unused accumulated vacation. Sick leave accumulates at the rate of 13 days per year. Unused sick

leave for employees who transferred from the Federal Government is counted at retirement as additional time worked for calculation of pension benefit. Unused sick leave for all other employees is forfeited at time of termination of employment regardless of the reason. Compensated absences are accrued when earned and reflected in accrued expenses. The calculation of the liability accrued for compensated absences is based on the pay or salary rates in effect as of the end of the fiscal period normally the year ended December 31. An additional amount has been accrued for the liability of salary related payments. Such salary related payments include the employer's share of social security, medicare and unemployment taxes and the employer's contributions to the Authority retirement and pension plans. The liability for compensated absences as of December 31, 2004 was \$5,599,399 and as of December 31, 2003 was \$4,401,583.

#### Arbitrage - Rebate Liability

The United States Treasury has issued regulations on calculating the rebate due to the United States Government on arbitrage profits and determining compliance with the arbitrage rebate provisions of the Tax Reform Act of 1986. Arbitrage profits arise when the Authority temporarily invests the proceeds of tax exempt debt in securities with higher yields. The Authority had no estimated liability on December 31, 2004 and an estimated liability of \$209,550 on December 31, 2003.

#### Capital Contributions - Passenger Facility Charges (PFCs)

In 1990, Congress approved the Aviation Safety and Capacity Expansion Act which authorized domestic airports to impose a PFC on enplaning passengers. In May 1991, the FAA issued the regulations for the use and reporting of PFCs. PFCs may be used for airport projects that meet at least one of the following criteria: preserve or enhance safety, security, or capacity of the national air transportation system; reduce noise or mitigate noise impacts resulting from an airport; or furnish opportunities for enhanced competition between or among carriers.

The Authority was granted permission to begin collecting a \$3.00 PFC effective November 1, 1993, at Reagan National and January 1, 1994, at Washington Dulles. The charges, less an administrative fee charged by the airlines for processing, are collected by the airlines and remitted on a monthly basis to the Authority. Due to their restricted use, PFCs are categorized as non-operating revenues and are accounted for on the accrual basis. The Authority applied for and received approval in February 2001, to increase the PFC collection from \$3.00 to \$4.50, effective May 2001.

#### Capital Contributions - Federal and State Grants

The Authority receives federal and state grants in support of its Capital Construction Program (CCP). The federal program provides funding for airport development, airport planning and noise compatibility programs from the Airport and Airways Trust Fund in the form of both entitlement and discretionary grants for eligible projects. The Commonwealth of Virginia also provides discretionary funds for capital programs.

Grants for capital asset acquisition, facility development, rehabilitation of facilities and long-term planning are reported in the Statements of Revenues, Expenses and Changes in Net Assets, after non-operating revenues and expenses as capital contributions.

#### Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management, where necessary, to make estimates and assumptions that effect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **B. DEPOSITS AND INVESTMENTS**

#### Cash

In accordance with GASB Statement No. 3, *Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*, the Authority classifies its deposits as to the credit risk by the following three categories: Category 1 includes insured or collateralized cash with securities held by the Authority or its agent in the Authority's name; Category 2 includes collateralized cash with securities held by the pledging financial institutions' trust department or agent in the Authority's name; and Category 3 includes uncollateralized cash, including any bank balance that is collaterized with securities held by the pledging institution, or by its trust department or agent, but not in the Authority's name. The table below presents the Authority's deposit risk classifications in accordance with GASB Statement No. 3:

	_	Decer	nber 31,
	_	2004	2003
Deposits			
Carrying amount	\$	5,752,661	\$ 22,959,678
Bank balance		3,008,721	929,045
FDIC insured or collateralized (Category 1)		2,881,821	910,045
Uncollateralized or uninsured (Category 3)		126,900	19,000
Certificates of deposit/investments			
Carrying amount	\$	6,000,000	\$ 5,100,000
FDIC insured or collateralized (Category 1)		600,000	400,000
Uncollateralized or uninsured (Category 3)		5,400,000	4,700,000

To assure the safety of demand deposits not covered by FDIC insurance, the Authority utilizes the LACE (Liquidity, Asset Quality, Capital and Earnings) Financial Institutions Rating Service to determine the stability of the financial institutions.

#### Investments

The primary objectives of the Authority's investment policy are the safety of capital, the liquidity of the portfolio and the yield of investments. Bond proceeds (See Note E) may be invested in securities as permitted in the bond indentures, otherwise, assets of the Authority may be invested in United States Treasury securities; short-term obligations of the United States Government agencies; short term obligations of the Commonwealth of Virginia, the State of Maryland, and the District of Columbia; certificates of deposit with banks that have a LACE rating of "B" or better, or that are fully insured or collateralized; prime

commercial paper rated A1 and P1 by Standard & Poor's Rating Services (S&P) and Moody's, respectively; prime bankers' acceptance notes; repurchase agreements whose underlying collateral consists of the foregoing; money market or mutual funds whose underlying collateral consists of the foregoing; or other such securities or obligations that may be approved by the Finance Committee by modification of the Authority's policy.

In accordance with GASB Statement No. 3, the Authority classifies its investments as to the credit risk by the following three categories: Category 1 includes insured or registered investments, or securities held by the Authority or its agent in the Authority's name; Category 2 includes uninsured and unregistered investments, with securities held by the counter party's trust department or agent in the Authority's name; and Category 3 includes uninsured and unregistered investments, with securities held by the counterpart, or by its trust department or agent, but not in the Authority's name.

The tables below present the Authority's investment risk classifications in accordance with GASB Statement No. 3:

				Deceml	ber 31, 20	004	
		Ca	tegory				Carrying
	1		2		3	Cost	Value

The fair value of the collateral for these Repurchase Agreements was \$58,724,891 and \$20,165,935 on December 31, 2004 and 2003, respectively. The collateral for the Repurchase Agreements was held by the Authority's agent in the Authority's name.

During 1998, the Authority implemented GASB Statement No. 31, *Accounting and Reporting For Certain Investments and For External Investments Pools*. In accordance with the provisions of this pronouncement, investments with an original maturity greater than one year are recorded at their fair value with all investment income, including changes in the fair value of investments, reported as investment income in the financial statements. As permitted by GASB Statement No. 31, investments with an original maturity of less than one year are carried at amortized cost. Fair values are determined through quoted market prices.

The tables below present the Authority's investments in accordance with GASB Statement No. 31:

	December	31, 2004
	Cost	Carrying Value
Securities with original maturity 1 year and over	\$ 169,240,390	\$ 170,949,593

	<u>\$ 649,308,877</u>	\$ 611,438,288

The Authority received and holds 658 shares of Ace Aviation Holding, LLC stock as a result of the Air Canada bankruptcy proceedings. The stock was valued at \$35.55 (Canadian) per share on December 31, 2004. The value of the stock is de minimis and has not been recorded in the Authority's financial records.

## C. INTEREST RATE SWAP

During the year ended December 31, 2001, the Authority entered into two forward starting interest rate swap agreements (the Swaps) to modify interest rates on future outstanding debt. In 2002, the Swaps were used to hedge \$241.8 million of the Series 2002C Bonds. Based on the swap agreement, the Authority owes interest calculated at a fixed rate of 4.45% and 4.46% to the counter parties to the Swap, Lehman Brothers and Merrill Lynch. In return, the counter parties owe the Authority interest based on a variable rate equal to 72% of LIBOR (London International Bank Offered Rate). Only the net difference in interest payments is actually exchanged with the counter parties. The Authority continues to pay interest to the bondholders at the variable rate provided by the Bonds, and during the term of the swap agreement, the Authority pays the difference between the fixed rate on the Swaps and 72% of LIBOR.

On January 6, 2004, the Authority completed a synthetic advance refunding of a portion of the Series 1994A Bonds through a forward starting fixed interest rate Swap agreement. The notional amount of the Swap is \$227.9 million and was issued to assure lower interest rates on \$219.5 million of Series 1994A Bonds. Based on the Swap agreement, the Authority owed interest calculated at a fixed rate of 3.65%, 3.64% and 3.64% to the counter parties to the Swap, Bear Stearns, Lehman Brothers, and Merrill Lynch. In return, the counter parties owed the Authority interest based on a variable rate equal to 72% of LIBOR. Only the net difference in interest payments actually exchange with the counter parties. In connection with the Series 2004D Bonds, on August 26, 2004, this 2004 Swap was terminated with a payment of \$3,662,018.

In connection with the Swaps, the Authority implemented Financial Accounting Standard No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FAS 133), on January 1, 2001.

The Swaps are recognized on the Statements of Net Assets in investments at fair value. Changes in the fair value of the Swaps are recorded as unrealized gains or losses on the Statements of Revenues, Expenses and Changes in Net Assets. As of December 31, 2004, the fair value of the Swaps was an unrealized loss of \$20,417,526. An unrealized gain of \$1,601,347 was recognized for the year ended December 31, 2004. An unrealized gain of \$5,572,334 was recognized for the year ended December 31, 2003, an unrealized loss of \$26,024,249 was recognized for the year ended December 31, 2002, and an unrealized loss of \$1,566,958 was recognized for the year ended December 31, 2001. In addition, net interest expenditures, which began in October 2002, are recorded in the financial statements.

# D. ACCOUNTS RECEIVABLE

Trade accounts receivable consists of the following:

	December 31,		
	2004	2003	
Trade accounts receivable	\$ 21,114,781	\$ 20,665,348	
Less: allowance for doubtful accounts	(1,081,403)	(1,370,573)	
	<u>\$ 20,033,378</u>	\$ 19,294,775	

For the years ended December 31, 2004 and December 31, 2003, the Authority's accounts receivable included \$4.0 million and \$4.5 million in post-petition debt from United. On March 19, 2004, the U.S. Bankruptcy Court for the Northern District of Illinois, Eastern Division, approved UAL Corporation's assumption of leases and cure of all defaults at Reagan National and Washington Dulles. The court's order among other things approved payment of \$4,476,143 by United to the Authority to cure all defaults under these leases; \$500,000 of this payment was paid within 60 days of this court order, with the remainder due within 30 days of United's final court approved plan of reorganization. The Authority has not established a reserve for the United Pre-petition debt. United is current on its post bankruptcy obligations.

The Authority's accounts receivables are 87% trade receivables due from concessionaires and airlines. The remaining 13% are notes and other receivables such as interest receivable and an amount due from an airline for payment for some studies done for a new commuter concourse.

# E. RESTRICTED ASSETS

The Master Indenture securing the Revenue Bonds of the Authority, requires segregation of certain assets into restricted accounts. The Authority has also included PFC assets in restricted assets. Restricted assets consist of the following:

	December 31,	
	2004	2003
Construction	\$ 128,736,558	\$ 210,736,302
Debt service reserve accounts	172,324,761	144,682,412
Interest accounts	28,522,863	26,802,915
Sinking fund accounts	25,752,788	21,899,841
Passenger facility charge accounts	53,485,838	14,797,301
Passenger facility charges and grant receivables	15,386,313	8,588,515
	\$ 424,209,121	\$ 427.507.286

The construction accounts include the funds available for the design and construction of capital improvements for the Airports. The debt service reserve accounts contain the maximum amount of required principal payments for the bonds scheduled to come due in one year. The debt service reserve accounts are revalued each year on September 30. Any amounts in excess of the debt service requirements are transferred to the applicable construction fund or taken into the revenue funds of the Authority if the construction funds have been expended. If the debt service reserve is undervalued, the Authority transfers funds into the accounts. The debt service reserve accounts were over funded by approximately \$1,802,223 and \$755,000, as of December 31, 2004 and December 31, 2003, respectively. The interest account contains the interest amounts required for the semi-annual interest payments. The sinking fund accounts represent the principal for the annual October bond payments. The PFC and grant receivables represent amounts collectable at the years ended December 31, 2003.

# F. CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the years ending December 31, 2004 and 2003 are as follows:

	Beginning Balance January 1, 2004	Transfers and Additions	Transfers and Deletions	Ending Balance December 31, 2004
Capital assets not being depreciated				
Construction in progress	\$ 619,050,895	\$ 370,117,910	\$ (243,161,433)	\$ 746,007,372

Totals	<u>\$ 2,553,672,786</u>	<u>\$ 415,096,180</u>	<u>\$ (224,705,926</u> )	\$ 2,744,063,040

For the year ended December 31, 2004, interest costs of \$10,037,007 less interest earned of \$3,081,027 were capitalized as part of the cost of construction in progress. For the year ended December 31, 2003 interest costs of \$11,544,327 less interest earned of \$5,888,938 were capitalized as part of the cost of construction in progress. Depreciation and amortization expense for the years ended December 31, 2004 and 2003 was \$126,177,767 and \$114,950,487, respectively, which includes amortization associated with bond issuance costs of \$3,744,226 and \$2,545,112, respectively.

The Authority's construction in progress account as of December 31, 2003, included approximately \$63.1 million in costs expended on design work for projects that were in a deferred status. As of December 31, 2004, the Authority's construction in progress account includes only \$4.5 million in costs expended on work for projects that are in a deferred status. In 2000, as part of its CCP, the Authority approved an expansion of the CCP for Washington Dulles, referred to as the  $d^2$  Program.

In the aftermath of September 11, 2001, and in the face of the deteriorating financial condition of many airlines, the Authority reexamined plans for the CCP in the spring of 2002. As a result, the Authority delayed the start dates of several projects, deferred some projects until it determined that demand and circumstances warranted reactivation of each project and added three new projects to the CCP. This active portion of the CCP is referred to as the 2001-2011 CCP.

In connection with the Authority's routine reviews of the CCP, the Authority has made certain adjustments to the 2001-2011 CCP since the spring of 2002, including adding new projects, deferring some active projects, reactivating some projects that were deferred and deleting certain projects from the CCP entirely.

Based on expenditures to date and projected expenditures through 2011, Authority management currently estimates the cost of the 2001-2011 CCP at approximately \$3.9 billion.

The major projects deferred as a result of the events of September 11, 2001, relate primarily to the planned Tier 2 Concourse and associated facilities and the 12-gate addition to Concourse B. A significant majority of these design plans and costs were reevaluated in 2004 and it was determined that the projects should go forward with an estimated completion date of 2011.

Of the remaining projects currently deferred, the designs for the deferred projects have been reviewed by the Authority's management and are of such nature that they are still currently applicable and will be of use for the deferred projects when they commence. These design plans and costs will be evaluated on a periodic basis and should it be determined that the projects will not go forward or the designs are no longer usable, the associated costs will be written off.

For the year ended December 31, 2004, the Authority early implemented GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries.* 

## G. ACCOUNTS PAYABLE

The accounts payable and accrued expenses balance is 55% payable from restricted funds and 45% payable from the general operating fund. The restricted fund payables are primarily trade accounts payable related to the Authority's ongoing construction program. Building construction costs payable are \$49.5 million as of December 31, 2004 and \$48.8 million as of December 31, 2003. The unrestricted accounts payables and accrued expenses are 26% accrued salaries and benefits, 33% payables to vendors, 32% deferred revenue, with the remaining 9% reserves for insurance claims.

## H. PENSION PLANS

The Authority participates in two United States Government pension plans: the Civil Service Retirement System (CSRS) and the Federal Employees' Retirement System (FERS). Each is considered a cost-sharing multiple employer public employee retirement system. Employees hired before December 31, 1983 are members of the CSRS unless they elected to transfer to FERS either before December 31, 1987 or during the special enrollment period from July 1, 1998, through December 31, 1998. In addition, the Authority maintains single employer-defined benefit pension plans that cover all of its police and fire employees and its regular employees hired on or after June 7, 1987, excluding employees working less than 20 hours a week and other temporary employees.

#### **Government Pension Plans**

Under the CSRS, employees contribute 7.0% of their base pay (7.5% for firefighters) and the Authority matches the employees' contributions. Retirement benefits are based on length of service and the average of the employee's three highest years of base pay. Employees can retire at age 55 with 30 years of service; age 60 with 20 years of service; or age 62 with five years of service. Firefighters can retire at age 50 with 20 years of firefighting service. Retirement annuities range from 7.5% of the average high three-year base pay to a maximum of 80% depending on years of service. Effective April 1, 1987, the CSRS added a Thrift Savings Plan where CSRS participants can now contribute up to 9.0% of their salary on a tax-deferred basis up to the statutory limit of \$14,000 in 2005. There are 75 regular employees and 17 police and firefighter employees currently enrolled in CSRS, as of December 31, 2004.

The FERS provides benefits from three different sources: a Basic Benefit Plan, Social Security, and the Thrift Savings Plan. The Basic Benefit Plan employees' deduction ranges from 0.8% of base pay for regular employees to 1.3% for firefighters. The Authority contributes from 10.7% for regular employees to 23.3% for firefighters. There are 51 regular employees and 39 police and firefighter employees currently enrolled in the FERS, as of December 31, 2004.

Employees retiring under the FERS are entitled to annual maximum retirement benefits equal to 1.1% of the employee's highest three-year average salary for every year of service. Regular employees are eligible for retirement when they have 10 years of service and have reached the minimum retirement age (ranging from 55 to 57 years old), based on a birth date. Firefighters can retire at age 50 with 20 years of firefighting service or at any age with 25 years of service. These employees are entitled to an annual retirement benefit of 1.7% of the employee's highest three-year average salary for every year of service up to 20 years and 1.0% for years of service over 20. FERS participants enrolled in the Thrift Savings Plan can now contribute up to 14% of their salary on a tax-deferred basis.

The Authority's base payroll for employees covered by the CSRS and the FERS for the year ended December 31, 2004 was approximately \$11,847,604. The Authority's total base payroll for all employees was approximately \$67,796,190. Employee contributions for these federal pension plans were \$503,334 (5.0% of covered payroll for 2004) and \$638,933 (5.0% of covered payroll for 2003).

The employer contributions for these plans were \$1,349,444 for 2004, \$1,425,519 for 2003, and \$1,527,365 for 2002. These contributions represent 100% of required contributions for each of the respective years.

In March 2003, the United States Office of Personnel Management (OPM) notified the Authority that they had completed the calculation of the cost of providing enhanced retirement benefits to the Authority's police officers under Public Law 106-554. Provisions of this law allowed the Authority's police officers that were employed while the Authority was part of the United States Department of Transportation, to elect to be treated as "law enforcement officers" for purposes of retirement. OPM calculated that the past service cost with interest is \$2.8 million and according to the law, is payable in five annual installments with the first payment of \$646,493, which was made on May 31, 2003, and the second payment of \$646,493, which was made on February 11, 2004. The third annual installment of \$646,493 will be made on or before May 31, 2005.

The U.S. Office of Personnel Management administers both the CSRS and the FERS. Copies of the financial statements of these pension plans may be obtained from the United States OPM. Actuarial information for these federal pension plans is not available.

#### The Authority Pension Plans

Effective January 1, 1989, the Authority established a retirement benefits program for employees hired on or after June 7, 1987, which provides income in the event of retirement or death where a surviving spouse remains. Employee coverage and service credit was retroactive to June 7, 1987. The program includes the Authority Retirement Plan (covering regular employees) and the Authority Retirement Plan for Police Officers and Firefighters (the Plans), both single employer defined benefit plans. Any amendment to these plans must be approved by the Authority's Board. As of December 31, 2004, the number of employees participating in the Plans was:

Current participants	<u>Regular</u>	Police/Fire	Total
Vested	553	161	714
Non-vested	186	89	275
Retirees/Disabled employees			
currently receiving benefits	84	5	89
Terminated vested participant	<u>146</u>	41	187
Total	969	296	1265

The Authority contributed 7.0% to the Regular Plan and 12.9% to the Police and Fire Plan in 2004. The Authority's base payroll in 2004 for the Regular Plan was approximately \$39,812,800 and \$12,162,155 for the Police and Fire Plan. The Authority's base payroll in 2003 for the Regular Plan was approximately \$38,397,296 and \$11,030,058 for the Police and Fire Plan. In 2004, the Authority contributed \$2,786,896 to the Regular Plan and \$1,568,918 to the Police and Fire Plan. In 2003, the Authority contributed \$2,370,976 to the Regular Plan and \$1,443,352 to the Police and Fire Plan. Employees do not contribute to the Regular Plan.

The Plans provide retirement benefits as well as death benefits. Regular employees who retire at or after age 60 with 5 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1.2% of final-average salary up to covered compensation and 1.6% of final-average salary which is above covered compensation for each year of credited service (maximum 30 years).

Final-average salary is the average of the employee's highest consecutive 78 pay periods in the most recent 260 pay periods, while covered compensation is the 35-year average of the Social Security Wage Bases ending with the year in which the participant attains Social Security normal retirement age. A pre-retirement surviving spouse benefit is payable in the event of death, equal to 50% of the benefit which would have been payable had the participant retired, provided the participant had at least five years of service. Benefits can be received as early as age 55 with five years of service with a 5% reduction for each year the participant is younger than age 60. Benefits are also adjusted to the lesser of one-half of the CPI or 4.0%.

The benefits to police officers and firefighters become payable at age 55 with five years of service or at any age with 25 years of service. Benefits are not reduced if retirement is at or after age 50. The benefit is 2.0% of the final average earnings for service up to 25 years, and 1.0% of the final average earnings for service between 25 and 30 years. Withdrawal, death, and cost of living benefits are similar to those available to regular employees. Police officers and firefighters are required to contribute 1.5% of base pay per year of participation, which is accumulated with a 5.0% interest rate and returned when a benefit is forfeited.

The Authority contributes the remaining amounts necessary to fund the Plans using the entry age normal actuarial method in addition to an amount to amortize any unfunded liability.

#### Contributions Required and Made

The Authority's funding policy is to provide for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. Employer contributions are determined in accordance with the plan provisions and approved by the Authority's Board. Level percentages of payroll employer contribution rates are determined using the entry age actuarial funding method shown in dollars in the following table. Unfunded actuarial accrued liabilities are being amortized over a period of 30 years on an open basis.

#### Annual Pension Cost and Net Pension Obligation

The Authority's annual pension obligations (asset) for its General Employees and Police and Firefighters pension plans for fiscal 2003, 2002 and 2001, the latest years for which data is available, were as follows:

	200	03
	General	Police and
	Employees	<b>Firefighters</b>
Annual required contribution	\$ 2,593,255	\$ 1,577,901
Interest on net pension obligation (asset)	(124,254)	(34,394)

#### Funding Status

The actuarial accrued liability was determined as part of an actuarial valuation of the Plans at December 31, 2003. Significant actuarial assumptions used in determining the actuarial accrued liability include: (a) a rate of return on the investment of the present and future assets of 7.5% per year compounded annually, (b) projected salary increases ranging from 5.5% to 9.5% based on years of service and anticipated inflation,(c) post-retirement benefit increases of 1.75% per year, (d) for inflation rate, CPI increases of 3.5% per year (e) amortization method of percentage of projected payroll, and (f) amortization period of 30 years, closed. The actuarial value of assets is determined using fair market values with changes smoothed over a five-year period. A copy of the actuarial valuation and plan document may be obtained by written request to: MWAA, Benefits Department, 1 Aviation Circle, Washington, DC 20001-6000. There are no separate stand alone financial reports issued.

#### Schedules of Funding Progress

Analysis of the dollar amounts of net assets available for benefits, actuarial accrued liability and assets in excess of actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets available for benefits as a percentage of the actuarial accrued liability provides one indication of the Plan's funding status on a going-concern basis. Analysis of this percentage over time indicates whether the Plan is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the retirement plan. Trends in assets in excess of actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the actuarial accrued liability in excess of assets as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of progress made in accumulating sufficient assets to pay benefits when due. Generally, the lower this percentage, the stronger the retirement plan.

The comparability of trend information is affected by changes in actuarial assumptions, benefit provisions, actuarial funding methods, accounting policies, the size or composition of the population covered by the Plan, and other changes. Those changes usually affect trends in contribution requirements and in ratios that use the AAL as a factor.

# I. POSTEMPLOYMENT BENEFITS AND DEFERRED COMPENSATION PLAN

In addition to pension benefits, the Authority provides postemployment benefits of health and life insurance. The Authority's Board initially provided the benefits package to meet requirements of the federal enabling legislation. Through the budget approval process, the Authority has continued to provide these benefits of insurance to retired employees under the Authority's group plans for health insurance and life insurance. As of December 31, 2004, 247 retired employees were receiving life insurance benefits and 226 retired employees were receiving health insurance benefits under these Authority programs. Both programs are funded on a "pay-as-you-go" basis through payment of monthly premiums to the insurance carriers.

The Authority pays 80% of the total health insurance premium costs with the remainder paid by the retired employee. For the years ended December 31, 2004 and 2003, the Authority health insurance costs for retired employees totaled \$1,952,465 and \$1,333,087, respectively.

The Authority pays the full cost of the retired employee's reduced basic and supplemental life insurance. Basic life insurance coverage is reduced to 25% of the employee's life insurance in force at the time of retirement. Supplemental life insurance is a multiple of the basic life insurance (1 to 5 times) that the employee had selected prior to retirement. The supplemental life insurance is reduced at a rate of 2.0% each month so that at the end of 50 months, no supplemental life insurance coverage is in force. Of the 247 retired employees, 40 had supplemental insurance coverage as of December 31, 2004. For the year ended December 31, 2004, the life insurance coverage as of December 31, 2003. For the year ended December 31, 2003, the life insurance costs for retired employees totaled \$265,248.

In accordance with GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* and GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, the Authority created in February 2005 an Employee Welfare Benefits Trust. This trust will provide a funding mechanism for retiree health coverage and other post-employment benefits other than pensions. The Authority will begin funding the trust and will fully implement GASB Statement No. 43 and GASB Statement No. 45 in 2005.

## Deferred Compensation Plan

Effective July 2, 1989, the Authority offered its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time employees, permits employees to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is available to employees at termination, retirement, death, or an unforeseeable emergency.

Effective January 1, 1997, the Board voted to enter into a trust agreement with Allfirst Trust (now Manufacturers and Traders Trust Company) (M&T) for the assets of the Deferred Compensation Plan. All assets were transferred to Allfirst Trust during 1997 and accordingly, are not included in the Authority's assets and liabilities.

Investments are managed for participants by ICMARC under one of several investment options, or a combination thereof. The choice of the investment option(s) is made by the participant. The investments are held in trust by M&T.

# J. CAPITAL DEBT

#### Bond Anticipation Commercial Paper Notes

The Authority issued Bond Anticipation Commercial Paper Notes pursuant to Resolution No. 00-1 adopted by the Board of the Authority on April 5, 2000, with a principal amount not to exceed \$250,000,000 outstanding at any time. On April 26, 2000 the Authority sold the first tranche of Series A commercial paper for \$20,000,000. The Notes are issued to provide interim financing for authorized projects at Reagan National and Washington Dulles. On August 29, 2000 a second tranche of the Series A commercial paper for \$130,000,000 was sold. The Notes were issued to refund a portion of the Series 1990A senior bonds. The Notes were supported by a Liquidity Agreement between the Authority and Westdeutsche Landesbank Girozentrale, New York Branch (WestLB), in the amount of \$150,000,000 dated April 1, 2000 that would have expired on April 18, 2005. The source of payment are proceeds of Notes sold, Take-Out Bonds, Construction Account funds, Liquidity Facility and other funds determined by the Authority to be legally available.

Pursuant to Resolution No. 00-20 adopted by the Board on October 18, 2000, the remaining \$100,000,000 of Bond Anticipation Commercial Paper Notes were approved for issuance. On October 25, 2000 the Authority sold the first tranche of Series B commercial paper for \$40,000,000. The Notes were issued to refund a portion of the Series 1990A senior bonds. On February 27, 2001 a second tranche of the Series B commercial paper for \$16,000,000 was sold. The Notes were issued to refund the final portion of the Series 1990A senior bonds. On February 27, 2001 a second tranche of the Series B commercial paper for \$16,000,000 was sold. The Notes were issued to refund the final portion of the Series 1990A senior bonds. On February 8, 2002 the third and final tranche of Series B commercial paper for \$44,000,000 was sold. The Notes were issued to provide interim financing for authorized projects at Reagan National and Washington Dulles. The Notes were supported by a Liquidity Agreement between the Authority and Landesbank Baden Wurttemberg, New York Branch (LBBW), in the amount of \$100,000,000 dated October 25, 2000 that expired on October 18, 2003. The source of payment are proceeds of Notes sold, Take-Out Bonds, Construction Account funds, Liquidity Facility and other funds determined by the Authority to be legally available. On October 1, 2003, a portion of the Series 2003A Bonds were used to repay the outstanding balance of these Notes.

The Notes were issued and remarketed under Commercial Paper Dealer Agreements between the Authority, Merrill Lynch and M.R. Beal & Company. Series A and B Commercial Paper were originally issued and remarketed through Merrill Lynch and M.R. Beal & Company on a 80/20 split; Series A Merrill Lynch \$120,000,000, M.R. Beal & Company \$30,000,000; and Series B Merrill Lynch \$44,800,000, M.R. Beal & Company \$11,200,000. From February 7, 2002 to March 7, 2002 using the remarketing process the amounts

were changed to Series A Merrill Lynch \$100,000,000, M.R. Beal & Company \$50,000,000, Series B Merrill Lynch \$100,000,000. This redistribution maintains the original 80/20 split among the brokers.

The Notes were variable rate based on the current market rate. On October 1, 2003 the Authority issued Airport System Revenue and Refunding Bonds Series 2003A and a portion of this issue was used to refund all \$100,000,000 of the Series B Bond Anticipation Notes.

#### Commercial Paper Notes

Resolution No. 01-6 was adopted by the Board on May 2, 2001, authorizing an additional \$250,000,000 of Commercial Paper Notes. With this resolution the Commercial Paper Notes were authorized to an amount not to exceed \$500,000,000.

On March 11, 2002, the Authority issued Airport System Revenue Commercial Paper Notes, Series One, in the amount of \$100,000,000. All \$100,000,000 of the Notes were sold through Bear, Stearns & Co. Inc., on April 14, 2002. The Notes are issued to provide financing for authorized projects at Reagan National and Washington Dulles. The Notes were backed by a direct pay Letter of Credit between the Authority and JP Morgan Chase Bank that would have expired on March 13, 2005, with provisions for extensions. In August 2002, the Authority issued Series 2002D Refunding Bonds which were used to refund the Series One Notes. All \$100,000,000 of the Series One Notes were repaid as of November 11, 2002. The weighted average interest rate on the Notes at the time of repayment was 1.43%. In November 2004 the Authority extended the Letter of Credit on the Commercial Paper Notes, Series One with JP Morgan Chase Bank to March 13, 2008 and increased the amount to \$150,000,000.

All of the Authority's Commercial Paper Notes are rated "P-1" short-term by Moody's, "A-1+" short-term by S&P, and "F1+" short-term by Fitch. The Authority redeemed the Series A Notes in January 2005.

# Bonds Payable (continued)

#### Senior Debt

A new Master Indenture was created in 1990 for the Authority. The Master Indenture was amended effective September 1, 2001, to in part, change the definition of Annual Debt Service to accommodate the issuance of secured commercial paper, to permit the Authority to release certain revenues from the definition of revenues, and to expand the list of permitted investments to include new, safe investment vehicles designed to increase the return on the Authority investments. Under this amended Master Indenture, all bonds are collateralized by a pledge of Net Revenues of the Authority which is "senior" to the "subordinated" pledge given by the Authority in connection with the issuance of its bonds prior to 1990. A total of \$3,956,090,000 of senior bonds excluding the commercial paper, has been issued by the Authority on 15 separate occasions including senior debt of: \$246,000,000 in February 1990; \$300,000,000 in March 1992; \$113,690,000 in March 1993; \$500,000,000 in June 1994; \$250,000,000 in May 1997; \$100,000,000 in October 1997; \$300,000,000 in July 1998; \$100,000,000 in April 1999; \$300,000,000 in April 2001; \$250,000,000 in June 2002; \$372,970,000 in August 2002; \$431,000,000 in October 2003; \$250,000,000 in May 2004; \$97,730,000 in July 2004: and \$344,000,000 in August 2004.

Portions of the Series 1997C Bonds were used to retire the Authority's Series 1989A Subordinated Bonds. Portions of the Series 1998B Bonds were used to retire the Authority's Series 1988A Subordinated Bonds. The proceeds of the Series 1999A Bonds were used to refund the Authority's Series 1997C Senior Bonds. The proceeds of the Series 2002C Bonds were used to refund the outstanding Series 1992A Senior Bonds. Proceeds of the Series 2002D Bonds were used to repay the outstanding Series One Commercial Paper Notes. A portion of the Series 2003A Bonds were used to repay all of the Authority's Series B Bond Anticipation Commercial Paper Notes. Proceeds of the Series 2003B Bonds were used to refund a portion of the Authority's Series 1993A Bonds. Proceeds of the Series 2003C Bonds were used to refund all of the Authority's outstanding Series 1993B Bonds and provide reimbursement for the Vastera Office Building at Washington Dulles.

On October 1, 2003, the Authority issued \$281,700,000 of Airport System Revenue Bonds Series 2003A-B-C and \$150,000,000 Airport System Revenue Variable Rate Bonds Series 2003D. The proceeds of \$185,000,000 of the Series 2003A Bonds together with other available funds (the Sinking Fund Account of the refunded commercial paper notes) were used to finance capital improvements at Reagan National and Washington Dulles and to repay the Authority's outstanding Series B Bond Anticipation Commercial Paper Notes. The outstanding balance of Series B Notes, \$100,000,000 was repaid on October 1, 2003. The commercial paper was repaid at par plus accrued interest. The proceeds of \$44,135,000 of the Series 2003B Bonds were used to refund a portion of the Authority's outstanding Airport System Revenue and Refunding Bonds, Series 1993A. The outstanding bonds maturing 2005 through 2019 of Series 1992A, \$43,360,000, were refunded on October 31, 2003. The Authority estimates the present value savings of this refunding to be \$1.9 million. The refunded Series 1992A Bonds were scheduled to mature on October 1, 2005 through 2019 and were subject to optional redemption on October 1, 2003. The bonds were redeemed at a price of 102% plus accrued interest. The proceeds of \$52,565,000 of the Taxable Series 2003C Bonds were used to reimburse the Authority the costs of certain capital projects at Washington Dulles and for the refunding of the Authority's outstanding Airport System Taxable Revenue and Refunding Bonds, Series 1993B. The outstanding balance of Series 1993B, \$33,930,000 was refunded on October 31, 2003. The Authority estimates the present value savings of this refunding was \$4.2 million. The refunded Series 1993B Bonds

were scheduled to mature on October 1, 2022 and were subject to optional redemption on October 1, 2003. The bonds were redeemed at a price of 102% plus accrued interest. The proceeds of \$150,000,000 of the Variable Rate Series 2003D Bonds were used to finance capital improvements at Reagan National and Washington Dulles. The Series 2003D Bonds are issued as auction rate securities in two subseries. Series 2003D-1, \$75,000,000, with Goldman, Sachs & Co. as underwriter and broker-dealer and Series 2003D-2, \$75,000,000, with Morgan Stanley as underwriter and broker-dealer.

During 2004 the Authority issued \$250,000,000 of Airport System Revenue Bonds Series 2004B and \$441,730,000 of Airport System Revenue Refunding Bonds, Series 2004A, C-1, C-2 and D. The proceeds of Series 2004B Bonds, issued on May18, 2004, will be used to finance capital improvements at Reagan National and Washington Dulles. The proceeds of \$13,600,000 of the Series 2004A Bonds, issued August 26, 2004, together with other available funds (the Debt Service Interest Account of the refunded Bonds) were used to refund the Authority's outstanding Airport System Revenue and Refunding Bonds, Series 1993A. The outstanding bonds maturing 2020 through 2022 of Series 1993A, \$13,440,000, were refunded on October 31, 2004. The Authority's present value savings of this refunding was \$0.8 million. The Authority will realize cash flow savings of \$745,484 with this transaction. The refunded Series 1993A Bonds were scheduled to mature on October 1, 2020 through 2022 and were subject to optional redemption on October 1, 2003. The bonds were redeemed at a price of 101% plus accrued interest. The proceeds of \$97,730,000 of the Series 2004C-1 Bonds, issued July 7, 2004, together with other available funds (the Debt Service Interest Account of the refunded Bonds) were used to refund a portion the Authority's outstanding Airport System Revenue Bonds, Series 1994A. The outstanding bonds maturing 2006 through 2008 and 2020 through 2021 of Series 1994A Bonds, \$96,360,000, were refunded on October 31, 2004. The Authority's present value savings of this refunding was \$3.9 million. The Authority will realize cash flow savings of \$5,950,254 with this transaction. The refunded Series 1994A Bonds were scheduled to mature on October 1,2006 through 2008 and 2020 through 2021 were subject to optional redemption on October 1, 2004. The bonds were redeemed at a price of 102% plus accrued interest. The proceeds of \$111,545,000 of the Series 2004C-2 Bonds, issued August 12, 2004, together with other available funds (the Debt Service Interest Account of the refunded Bonds) were used to refund a portion the Authority's outstanding Airport System Revenue Bonds, Series 1994A. The outstanding bonds maturing 2005 and 2022 through 2024 of Series 1994A Bonds, \$109,430,000, were refunded on October 31, 2004. The Authority's present value savings of this refunding was \$3.5 million. The Authority will realize cash flow savings of \$5,708,002 with this transaction. The refunded Series 1994A Bonds were scheduled to mature on October 1,2005 and 2022 through 2024 were subject to optional redemption on October 1, 2004. The bonds were redeemed at a price of 102% plus accrued interest. The proceeds of \$218,855,000 of the Series 2004D Bonds, issued August 26, 2004, together with other available funds (the Debt Service Interest Account and the Debt Service Reserve Account of the refunded Bonds) were used to refund a portion the Authority's outstanding Airport System Revenue Bonds, Series 1994A. The outstanding bonds maturing 2009 through 2019 of Series 1994A Bonds, \$219,495,000, were refunded on October 31, 2004. The Authority's present value savings of this refunding was \$14.6 million. The Authority will realize cash flow savings of \$20,743,430 with this transaction. The refunded Series 1994A Bonds were scheduled to mature on October 1,2009 through 2019 were subject to optional redemption on October 1, 2004. The bonds were redeemed at a price of 102% plus accrued interest.

The Authority reviews each bond sale to determine if there is value in providing investors municipal bond insurance. Insurance is provided in part by Financial Guaranty Insurance Company (FGIC), Municipal Bond Investors Assurance Corporation (MBIA), Financial Security Assurance (FSA), and XLCapital Assurance (XL). The following table details the Authority's outstanding debt noting insured and uninsured bonds.

Bond Series	 Principal Outstanding	 Uninsured Bonds	 Insured Bonds	Insurance Provider

Thereafter	348,535,000	44,910,485	393,445,485
	<u>\$2,567,030,000</u>	<u>\$2,000,342,807</u>	\$4,567,372,807

Total interest cost for the years ended December 31, 2004 and 2003 were \$122,852,625 and \$110,289,313, respectively. The current portion of the Authority's bonds payable, in the amount of \$59,035,000, is due on October 1, 2005.

## Special Facility Revenue Bonds

In March 1991, the Authority issued \$14,200,000 of Special Facility Revenue Bonds on behalf of Caterair International Corporation (Caterair). The bonds were issued to finance the construction of an Inflight Kitchen Facility at Reagan National.

The Special Facility Revenue Bonds and related costs are payable only with funds from Caterair. Since these bonds do not represent a claim on the Authority's assets, nor do they require the Authority to incur future obligations, they have not been recorded in the Authority's financial statements.

# K. AIRPORT USE AGREEMENT AND PREMISES LEASE

In February 1990, the Authority entered into a long-term agreement with the major airlines serving the Airports. The Agreement is for a term of 25 years, subject to cancellation rights by the Authority after 15 years, and annually thereafter, at the option of the Authority. The Agreement provides for the calculation of annual rates and charges, with rate adjustments at midyear, or any time revenues fall 5% or more below projections. The Agreement also provides for an annual "settlement" whereby the rates and charges are recalculated using audited financial data to determine any airline over/underpayment. For the year ended December 31, 2004, the settlement resulted in a credit to the airlines of \$856,126 which was reflected in accounts payable and accrued expenses. For the year ended December 31, 2003, the settlement resulted in a charge to the airlines of \$6,024,150 which is reflected as a reduction in accounts payable and accrued expenses.

Rates and charges are established to provide net revenues of at least 125% of debt service. Net remaining revenues (NRR) are defined as revenues less all operating and maintenance expenses, debt service, specified reserves, and other requirements. Subsequent to the final determination, NRR is allocated between the Authority and the Airlines in accordance with the Agreement which shares NRR approximately 50/50 between the Authority and the Airlines. The Authority's share of NRR is reflected in the Authority's Capital Fund as a reservation of retained earnings in the subsequent year, and is available for repair and rehabilitation projects or any other lawful purpose. The Airlines' share of NRR is recorded prospectively and reduces the subsequent year's rates and charges. All calculations are done in accordance with the Agreement.

In addition, the Agreement establishes an index amount at each Airport. When the transfer amount to the airlines reaches this level, the amount over the plateau is allocated 75% to the Airlines and 25% to the Authority. For the years ended December 31, 2004 and 2003, at Washington Dulles, the transfer amount exceeded the plateau amount by \$30,739,487 and \$3,861,556, respectively. This amount was allocated accordingly and is included in the Airlines' and the Authority's share. For the years ended December 31, 2004 and 2003, at Reagan National, the transfer amount exceeded the plateau amount by \$2,826,273 and \$1,615,506, respectively. For the years ended December 31, 2004 and 2003, the Airlines' share of NRR was

2002

2004

\$53,981,019 and \$27,681,635, respectively, and the Authority's share was \$35,285,468 and \$25,591,988, respectively.

Unrestricted assets consists of the following:

## M. LEASE COMMITMENTS

#### Property Held for Lease

The Authority has entered into various operating leases with tenants for the use of space at the Authority's facilities including buildings, terminals, and customer service areas. The lease terms include a minimum fixed fee as well as contingent fees based on the tenants' volume of business. All the leases provide for a periodic review and redetermination of the rental amounts. Minimum future rentals scheduled to be received on operating leases that have initial or remaining noncancelable terms in excess of one year are:

Year ending December 31,		
2005	\$	236,970,025
2006		237,645,431
2007		249,532,899
2008		253,502,466
2009		318,237,719
2010 and thereafter	2	2,018,075,025
Total minimum future rentals	\$3	3,313,963,565

The above amounts do not include contingent rentals and fees in excess of minimums, which amounted to \$12,928,335 for the year ended December 31, 2004. The portion of property associated with minimum rentals derived from operating leases was capitalized prior to June 7, 1987, and ownership was retained by the United States Government. Use of this property is provided to the Authority under its operating lease with the United States Government. Accordingly, the cost of this property is not reflected in the financial statements of the Authority.

On December 15, 2003, the operating period of the lease of land and provision for services to the Stephen F. Udvar-Hazy Center (Center) began. The lease agreement grants the Smithsonian the right to occupy, develop, operate, control and use the Center premises located on land at Washington Dulles and obtain services from the Authority for police, fire, emergency, and ambulance needs. This lease expires in 2054. The operating period was preceded by a construction period. Commencing with the operating period the Smithsonian will pay the Authority for the services provided. The lease provides for periodic reconciliation payments and updated payments for services provided.

#### Property Leased from Others

On June 7, 1987, the United States Government transferred Reagan National's and Washington Dulles' real properties to the Authority under a 50-year lease, with extensions negotiable. The lease was amended effective June 17, 2003, to extend the term from 50 to 80 years, with an expiration date of June 6, 2067. Upon expiration of the lease, the Airports and facilities, including improvements, will be returned to the United States Government. The lease requires annual rental payments of \$3,000,000, with subsequent annual rental payments adjusted for inflation. The 2004 federal lease expense was \$4,386,037. The Authority invests monthly lease payments in Repurchase Agreements or Certificates of Deposit and makes semi-annual payments, including interest, to the United States Government.

Minimum future rentals scheduled to be paid on operating leases in effect on December 31, 2004, as calculated in 2004 dollars are:

Year ending December 31,		
2005	\$	4,375,347
2006		4,375,347
2007		4,375,347
2008		4,375,347
2009		4,375,347
2010 and thereafter	2	53,770,145
Total minimum future rentals	<u>\$2</u>	75,646,880

Total rental expense for the years ended December 31, 2004 and 2003 were \$4,375,347 and \$4,312,430 respectively.

## N. OTHER COMMITMENTS AND CONTINGENCIES

#### Line of Credit

The Authority issued Flexible Term PFC Revenue Notes (bank participation notes) of \$255,000,000 to finance PFC approved projects. The bank participation notes have various maturity dates and interest rates that vary from 1.39% to 2.10%. The bank participation notes require the Authority to maintain a reserve account. The reserve account at December 31, 2004 and 2003 was \$1,529,885 and \$1,529,885, respectively, and is included in PFCs, cash, restricted on the Statements of Net Assets. The bank participation notes are backed by a Bank of America, N.A. Letter of Credit. Bank participation notes outstanding at December 31, 2004 and 2003 were \$187,700,000 and \$187,700,000, respectively. Total interest cost for the years ended December 31, 2004 and 2003 were \$3,571,826 and \$2,316,822, respectively.

#### **Construction Commitments**

At December 31, 2004, the Authority had outstanding commitments for capital expenditures in connection with its CCP in the amount of \$925.5 million. However, services have not been provided as of December 31, 2004, and accordingly no liability has been recorded in the financial statements. In connection with the CCP and Capital, Operating and Maintenance Investment Programs (COMIP), and normal operations of Reagan National and Washington Dulles, the Authority recognizes the need to address environmental concerns and currently oversees a number of ongoing environmental projects. Management has estimated that the cost to continuously monitor and inspect these environmental concerns ranges between \$20 million and \$25 million, of which a portion is expected to be funded by the FAA. The Authority has budgeted and expects to fund any remaining costs principally through the CCP.

## O. GOVERNMENT GRANTS

## In Aid of Construction

The Authority receives, on a reimbursement basis, grants from the Commonwealth of Virginia and the United States Government for certain capital construction projects through the Airport Improvement Program (AIP). As a recipient of state and federal financial assistance, the Authority is responsible for maintaining an internal control structure that ensures compliance with all laws and regulations related to this program. Total federal and state grant work performed for years ended December 31, 2004 and 2003 was \$28,194,097 and \$12,308,939, respectively. All grants are subject to financial and compliance audits by the grantors. However, the Authority estimates that no material disallowances will result from such audits.

#### Federal and State Grants

The Authority received federal and state grants for operating and capital programs as summarized in the tables below:

#### **Operating Programs**

	2004	2003
FAA K-9 Program	\$ 400,500	\$ 400,500
Drug Enforcement Agency (DEA) Drug Seizures Program	9,521	4,748
Federal Emergency Management Agency (FEMA)	102,396	1,659,541
Prince William County Anti-Terrorism Grant	-	9,345
U.S. Customs Drug Seizures Program	50,238	-

The FAA K-9 program funds are used to offset expenses of training and caring for the explosive detection dogs. The Drug Enforcement Agency Drug Seizures Program, and the U.S. Customs Drug Seizures Program are collaborative efforts between the agencies and the Authority's police department wherein both entities share in the proceeds from the sale of confiscated items. The Authority's proceeds may only be used for certain types of expenses defined by the DEA and Customs. In February 2003, the Authority was impacted by the largest snowstorm to hit the greater Metropolitan Washington area in decades. The Airports were blanketed by 16.6 inches of snow at Reagan National and 24.6 inches of snowfall at Washington Dulles. As a result FEMA reimbursed the Authority in 2003 for certain expenses, including overtime, supplies and equipment. Also, in 2003, the Greater Washington area was struck by Hurricane Isabel on September 18. The Authority was reimbursed by FEMA, \$102,396, for expenses such as overtime, supplies and equipment related to this weather event. The Authority received this reimbursement in 2004. All of the amounts above were reported as grant revenue in the Statements of Revenues, Expenses and Changes in Net Assets for year ended December 31, 2004 and 2003.

#### Capital Program

	2004	2003
Federal Grants for Construction	\$26,199,254	\$11,067,245
State Grants for Construction	1,701,500	1,241,694
Dept. Homeland Security-Critical Infrastructure Protection Grant	293,343	-

The Authority receives federal and state grants in support of its CCP. The federal programs provide funding for airport development, airport planning and noise compatibility programs from the Airports and Airways Trust Funds in the form of entitlement and discretionary grants for eligible projects. The Commonwealth of Virginia also provides discretionary funds for capital programs.

Grants for capital asset acquisition, facility development, rehabilitation of facilities and long-term planning are reported in the Statements of Revenues, Expenses and Changes in Net Assets as Capital Contributions.

#### Other Capital Property Acquired

The Authority recorded \$6.0 million in capital contributions in 2003, in recognition of a portion of the Aircraft Haul Road and a portion of the Museum Access Road built by the Smithsonian and the Virginia Department of Transportation during the construction of the Center. The title to these access ways vests with the Authority upon completion of the Center and acceptance by the Authority. The Authority is required to maintain these roadways and allow Smithsonian patrons and invitees ingress to and egress from the Center premises for the movement of aircraft and vehicles.

# P. LITIGATION

Legal counsel has advised that, while a number of claims in the normal course of business are outstanding, there were no matters outstanding which could have a material adverse effect on the financial statements of the Authority.

## Q. PASSENGER FACILITY CHARGES

As described in Note A, PFCs are collected in accordance with the FAA regulations allowing airports to impose a \$4.50 PFC. For the years ended December 31, 2004 and 2003, the Authority earned PFCs of \$30,881,848 and \$27,901,618 for Reagan National, respectively, and \$45,178,326 and \$30,536,420 for Washington Dulles, respectively. In accordance with the regulations, based on the approval date from the FAA and continuing through the PFC collection period, the Authority's share of entitlement grants will be reduced 75%.

## **R. RISK MANAGEMENT**

The Authority is exposed to a variety of risks or losses related to operations (i.e., injuries to employees, injuries to members of the public or damage to their property, and damage to the Authority's property). Since 2002, the Authority has maintained accruals to finance its self-insured risk of loss. The Authority purchases commercial insurance for claims in excess of amounts provided by these accounts.

All offices within the Authority are covered under these accounts. The accruals are determined by the Risk Management Department based on insurance claim practices and actuarial estimates for prior and currentyear claims. The overall accrual for losses was \$3,814,673 as of December 31, 2004, and is included in the accounts payable and accrued expenses line item. This is based on the requirements of GASB Statement No. 30, *Risk Financing Omnibus*, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the claim liability accounts amount in fiscal year 2004 and 2003 were:

Fiscal	Beginning	Claims and Changes	Claim	Ending
Year	Liability	in Estimates	Payments	Liability
2004	\$3,206,795	\$2,032,614	\$ 1,424,736	\$3,814,673
2003	\$1,845,162	\$3,485,871	\$ 2,124,238	\$ 3,206,795

Settlements did not exceed insurance coverages for the past three years.

# S. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

#### Cash and Short Term Investments

The carrying amount approximates the fair value because of the short maturity of those instruments (See Note B).

#### Long-Term Investments

For securities held as long-term investments, fair value equals quoted market prices, if available. If a quoted market price is not available, fair value is estimated based upon quoted market prices for securities with similar characteristics (See Note B).

#### Long-Term Debt

The fair value of the Authority's long-term debt is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to the Authority for debt of the same remaining maturities.

The carrying value of the Authority's Bonds Payable and CP Notes Payable as of December 31, 2004, is \$2,717,030,000 with an estimated market value of \$2,773,068,449.

#### Interest Rate SWAP

The fair value of the interest rate swap (used for hedging purposes) is the estimated amount that the Authority would pay (or receive) to terminate the swap agreements at the reporting date, taking into account current interest rates and the current creditworthiness of the swap counter parties (See Note C).

# T. RECLASSIFICATION

The Authority changed the presentation of the compensated absences in the 2004 financial statements. Analysis indicated that the full amount of the liability at year ended December 31, 2003 was consumed completely in 2004. Therefore, the Authority classified the full amount of the liability as of December 31, 2004, as current. For comparative purposes, the full amount of the long-term liability of \$4,240,900 as of December 31, 2003, has been reclassified from a long-term liability to a current liability.

The Authority presented in the 2003 Comprehensive Annual Financial Report \$10,248,971 in capital assets and the related depreciation of \$85,408 in Systems and Structures. These should have been presented in Buildings. The presentation in the 2004 Comprehensive Annual Financial Report has been reclassified to reflect these changes.

#### U. SUBSEQUENT EVENTS

On January 12, 2005, the Authority closed on its \$200 million CP Series Two Program. The Authority's initial draw on the CP Series Two was \$141 million and was used with other available funds to refund the \$150 million CP BANs Series A. The CP Series Two is secured by an irrevocable direct pay letter of credit issued by WestLB AG and Landesbank Baden-Wurttemberg, which expires in December 2015.

On March 2, 2005, the Board of Directors of the Authority issued Resolution No. 05-7 authorizing the issuance of one or more Series of Airport System Revenue Bonds in an amount not to exceed \$350,000,000 to finance or refinance certain capital improvements and acquisitions at Reagan National and Washington Dulles airports with proceeds of tax-exempt and taxable bonds. The resolution also authorized the issuance of \$75,000,000 Airport System Revenue Bonds to refund up to \$31,310,000 principal amount of outstanding Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1997A, \$16,720,000 principal amount of Airport System Revenue Bonds, Series 1998A, and \$11,040,000 principal amount of outstanding Airport System Revenue Bonds, Series 2001B of the Authority's outstanding bonds.

The Authority purchased 830 acres of land adjacent to Washington Dulles on March 15, 2005. The purchase price was \$56,000,000.
