IFB No. 1-18-C019
Calcium Magnesium Acetate for DCA
January 25, 2018

Questions and Answers

Notice: Questions may have been edited for clarity and relevance.

- 1. Question:** Would MWAA consider allowing price adjustments annually based on documented raw material price changes? Due to the volatility in the chemical markets, it is difficult to accurately forecast pricing for four year duration. Annual price adjustments would be mutually beneficial in allowing for price decreases or increases, linked directly to changing raw material prices.

Answer: No, the Airports Authority expects Contractors to forecast price of commodity to the best of availability.
