

## **OCTOBER 2014 FINANCIAL ADVISOR REPORT – THE AVIATION ENTERPRISE**

### **INTRODUCTION**

The Finance Committee has requested that the Aviation Enterprise Financial Advisors provide a monthly report on the status of the financing of the Capital Construction Program (CCP) and any related issues concerning the Airports Authority's Aviation Enterprise capital financing activities. The Financial Advisors presents this Monthly Report, focusing on the specific debt management projects underway, the debt policy framework guiding these projects and the financing of the CCP in general.

### **DISCUSSION SUMMARY**

This paper is organized as follows:

- I. Executive Summary
- II. Action Items
  - A. none
- III. Informational Items
  - A. Closing of Replacement Bank Facilities
  - B. Review of Financing Proposals
- IV. Monthly Updates
  - A. CCP: Actuals vs. Projections
  - B. Short-term Liquidity Forecast
  - C. Variable Rate Programs
  - D. Swaps –Swap Performance

### Exhibits

- A. Airports Authority's Capital Construction Program
- B. Airport System Revenue Bonds
  - Summary of Bonds Outstanding
  - Refunding Monitor
- C. Variable Rate Programs
  - Overview
  - Historical Performance
- D. Swap Program
  - Airports Authority Swap Profile
  - Historic Performance of 2009 Swaps

## I. EXECUTIVE SUMMARY

### Action Items

- None to report this month

### Informational Items

- ***Closing of Replacement Bank Facilities.*** On September 23, 2014, the Airports Authority closed the Series 2010D extension whereby the terms of the \$161.785 million Wells Fargo indexed floaters were extended from 2015 to 2017 and the applicable spread was lowered. On October 2, 2014, the \$173.185 million Series 2011B Bonds were remarketed to PNC under terms that extended the expiration date from 2015 to 2017 and the applicable spread was lowered from its prior level. As a result of these two new facilities, the Airports Authority will save \$1.26 million to \$1.13 million annually over the next three years.
- ***Review of Financing Proposals.*** Finance Staff and the Financial Advisors met on September 17 to review unsolicited proposals received by members of the Aviation Enterprise and Dulles Corridor Enterprise underwriting syndicates. These financing ideas included investment strategies, short-term products as well as recommendations related to Bonds callable in 2015. Finance Staff has determined that certain ideas warrant further consideration and the financing team has begun discussions with bond and tax counsel.
- ***Capital Construction Program.*** For 2014, CCP expenditures are budgeted at \$209.5 million including construction and capitalized interest costs. Expenditures in September 2014 totaled \$8.4 million including accrued capitalized interest expenditures. Through the end of September 2014 year-to-date capital expenditures were \$87.1 million.

## II. ACTION ITEMS

No Action Items to report this month.

## III. INFORMATIONAL ITEMS

### (III.A) Closing of Replacement Bank Facilities

Following the Board approvals at its September meeting, the Airports Authority recently closed two replacement bank facilities.

- 1) Series 2010D – Closed September 23: The Airports Authority extended the scheduled termination date with Wells Fargo for the outstanding \$161.785 million Series 2010D, from December 2015 to September 2017. In addition, the Airports Authority reduced the cost of the facility from 72 percent of one-month LIBOR plus 65 basis points to 72 percent of one-month LIBOR plus 32.5 basis points—reducing the Series 2010D fees by approximately \$0.52 million in the first year.
- 2) Series 2011B – Closed October 2: The Airports Authority remarketed \$173.185 million Series 2011B to PNC as purchaser of the Bonds, changing the spread from SIFMA plus 75 basis points to 72 percent of one-month LIBOR plus 32 basis points<sup>1</sup>—reducing the Series 2011B fees by approximately \$0.74 million in the first year. In addition, the Series 2011B scheduled expiration was extended from September 2015 to October 2017.

With these recent changes and following the October 1 principal payments, the Airports Authority has \$1.083 billion of bank facilities currently outstanding supporting variable rate bonds.

PORTFOLIO OF BANK FACILITIES					
SCHEDULED EXPIRATION	AMOUNT OUTSTANDING	SERIES (TAX STATUS)	AMOUNT HEDGED (\$)	AMOUNT UNHEDGED (\$)	BANK FACILITY
2015	\$156,265,000	2010C1 (AMT)	–	59,575,000	BARCLAYS LOC
		2010C2 (NON-AMT)	96,690,000	–	BARCLAYS LOC
2016	269,885,000	2011A (AMT)	210,135,000	–	WELLS FLOATERS
		2003D1 (AMT)	–	59,750,000	BOFA FLOATERS
2017	657,170,000	2010D (NON-AMT)	158,780,000	–	WELLS FLOATERS
		2011B (AMT)	–	173,185,000	PNC FLOATERS
		CP 2	–	200,000,000	SUMITOMO LOC
		2009D (NON-AMT)	125,205,000	–	TD LOC
<b>TOTALS</b>	<b>\$1,083,320,000</b>		<b>\$590,810,000</b>	<b>\$492,510,000</b>	

<sup>1</sup> Over the last five years, SIFMA has averaged 1.2 bps above 72% of one-month LIBOR.

## **(III.B) Review of Financing Proposals**

Finance Staff and the Financial Advisors met on September 17 to review unsolicited proposals received by members of the Aviation Enterprise and Dulles Corridor Enterprise underwriting syndicates. These financing ideas included investment strategies, short-term products as well as recommendations related to Bonds callable in 2015. Finance Staff has determined that certain ideas warrant further consideration and the financing team has begun discussions with bond and tax counsel. Depending on the outcome of these discussions with counsel, Finance Staff and the Financial Advisor may come back with recommendations to the Finance Committee in November or December.

## IV. MONTHLY UPDATES

### (IV.A) CCP: Actuals vs. Projections

**Exhibit A** sets forth the major 2001-2016 CCP projects underway at the Airports Authority, as well as historical CCP actual versus projected expenditures. For 2014, CCP expenditures are budgeted at \$209.5 million including construction and capitalized interest costs. Expenditures in September 2014 totaled \$8.4 million, including capitalized interest expenditures. Through the end of September 2014, year-to-date capital expenditures were \$87.1 million.

<b>2014 CCP Projections vs. Actuals</b>				
<b>(\$ millions)</b>				
	<i>General Ledger Actual<sup>2</sup></i>	<i>Original Projection</i>	<i>Variance</i>	<i>Variance (%)</i>
14-Jan	\$13.10	\$11.60	\$1.50	12.93%
14-Feb	\$5.40	\$17.55	(\$12.15)	(69.23%)
14-Mar	\$10.50	\$15.22	(\$4.72)	(31.01%)
14-Apr	\$14.80	\$25.05	(\$10.25)	(40.92%)
14-May	\$13.60	\$12.55	\$1.05	8.37%
14-Jun	\$7.70	\$12.97	(\$5.27)	(40.63%)
14-Jul	\$3.60	\$19.14	(\$15.54)	(81.19%)
14-Aug	\$10.00	\$22.17	(\$12.17)	(54.89%)
14-Sep	\$8.40	\$15.95	(\$7.55)	(47.34%)
14-Oct		\$24.18		
14-Nov		\$16.58		
14-Dec		\$16.59		
<b>2014 Totals (Through Sept.)</b>	<b>\$87.10</b>	<b>\$152.20</b>	<b>(\$65.10)</b>	<b>(42.77%)</b>

<sup>2</sup> As provided by the Airports Authority.

## (IV.B) Short-term Liquidity Forecast

*The following (including the table and chart) is based on information provided to the Financial Advisors by Finance staff.*

As of the beginning of October 2014, the Airports Authority had \$154.7 million of cash-on-hand<sup>3</sup> and \$179 million of additional available liquidity in the form of undrawn CP Series Two capacity.

Short-term Liquidity Forecast (\$ millions)					
Beginning of Month	Cash Available	CP Available to Draw	PFCs	Grants	Projected Expenditures
Oct-14	154.7	179.0	0.1	4.0	(24.2)
Nov-14	134.6	179.0	0.1	4.0	(16.6)
Dec-14	122.1	179.0	0.1	4.0	(16.6)

<sup>3</sup> The cash-on-hand includes proceeds of the Series 2014A Bonds received in July and Funds 63 and 64.

## (IV.C) Variable Rate Programs

In addition to the approximately \$904.3 million of variable rate debt that the Airports Authority has currently outstanding, it can issue up to \$179 million of CP Two Notes which are currently “on-the-shelf.”

The approximately \$313.5 million in unhedged variable rate debt outstanding represents approximately 6.4 percent of the outstanding \$4.9 billion indebtedness.

### *Gross Variable Rate Exposure*

<b>Fixed Rate Debt Percentage:</b>		
Fixed Rate Debt	\$3,986,715,000	
2009D VRDOs (Hedged)	125,205,000	
2010C2 VRDOs (Hedged)	96,690,000	
2010D Index Floater (Hedged)	158,780,000	
2011A Index Floater (Hedged)	210,135,000	
<b>Fixed Rate</b>	<b>\$4,577,525,000</b>	<b>93.59%</b>
<b>Variable Rate Debt Percentage:</b>		
2003D Index Floater	59,750,000	
2010C1 VRDOs	59,575,000	
2011B Index Floater	173,185,000	
CP Notes	21,000,000	
<b>Variable Rate</b>	<b>\$313,510,000</b>	<b>6.41%</b>
<b>Combined Total</b>	<b>\$4,891,035,000</b>	<b>100.00%</b>

The Airports Authority’s current \$271 million unrestricted cash balances in short-term investments can be netted against variable rate debt exposure to produce a “net variable rate exposure.” Currently, the Airports Authority has \$43 million of net variable rate exposure.

**Exhibit C-2** illustrates for the current year the rolling three-month average spreads to the SIFMA of the Airports Authority’s variable rate programs, as well as historic spreads to SIFMA by quarter.

## (IV.D) Swaps – Monthly Swap Performance

**2002 Swap:** Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.45 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2002 Swap originally hedged the Series 2002C Bonds and now hedges the 2011A-2 Indexed Floaters which refunded the Series 2002C Bonds in full. The Airports Authority pays 72 percent of LIBOR plus 82 basis points on the Indexed Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 4.45 percent plus the spread of 82 basis points: 5.27 percent.

**2009 Swaps:** Under the terms of the swap agreements, the Airports Authority pays to the counterparties an average fixed rate of 4.10 percent on the outstanding notional amount

of the swap. In return, the Airports Authority receives from the counterparties 72 percent of one-month LIBOR based upon the outstanding notional amount of its respective swaps. The 2009 Swap originally hedged the Series 2009A Bonds and 2009D Bonds. The Series 2009A were partially refunded by the Series 2010C2 Bonds and the remaining portion was fully refunded by the Series 2011A-3 Bonds. The 2009 swaps now hedge the 2011A-3 Indexed Floaters and the 2009D and 2010C2 Variable Rate Demand Obligations (VRDOs). On the Indexed Floaters, the Airports Authority pays 72 percent of LIBOR plus 82 basis points. The effective rate of the swap related to these Bonds is therefore equal to the fixed swap rate of 4.10 percent plus the spread of 82 basis points: 4.92 percent. **Exhibit D-3** provides the historical monthly cash flow history of the 2009 swaps associated with the hedged VRDOs (currently the 2009D and 2010C2).

**2010 Swap:** Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.11 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2010 Swap hedges the Series 2010D Indexed Floaters. The Airports Authority pays 72 percent of LIBOR plus 32.5 basis points on the Indexed Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 4.11 percent plus the spread of 32.5 basis points: 4.44 percent.

**2011 Swap:** Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 3.86 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2011 Swap hedges the Series 2011A-1 Indexed Floaters. The Airports Authority pays 72 percent of LIBOR plus 82 basis points on the Indexed Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 3.86 percent plus the spread of 82 basis points: 4.68 percent.

## Exhibit A Airports Authority's CCP

### Major projects under construction at Reagan National include:

- North Substation Gear Replacement;
- Runway 15-33 and 4-22 Runway Safety Area Enhancements;
- Combined Electrical System Upgrades; and
- Hangar 6 Roof Replacement

### Major projects under construction at Dulles International include:

- East and West Baggage Basement In Line High Volume Baggage Screening;
- Concourse C/D Rehabilitation;
- High Temperature Hot Water Generator Procurement & Replacement;
- Cargo Buildings 1-4 Exterior Rehabilitation;
- Historic Air Traffic Control Tower Exterior Rehabilitation;
- Dedicated Fire System Surge Prevention;
- Hydrant Fuel Line Improvements; and
- Combined Taxilane C and Taxiway Z Reconstruction

### **Historical CCP Projections vs. Actuals (2001-2013) (\$ millions)**

	<i>General Ledger Actual</i>	<i>Projection*</i>	<i>Variance</i>	<i>Variance (%)</i>
2001 Totals	\$370.8	\$429.8	(\$58.9)	(13.7%)
2002 Totals	\$295.6	\$346.5	(\$50.9)	(14.7%)
2003 Totals	\$282.7	\$321.9	(\$39.2)	(12.2%)
2004 Totals	\$349.3	\$349.9	(\$0.6)	(0.2%)
2005 Totals**	\$555.8	\$574.4	(\$18.6)	(3.2%)
2006 Totals	\$672.2	\$713.2	(\$41.0)	(5.7%)
2007 Totals	\$719.4	\$689.7	\$29.7	4.3%
2008 Totals	\$537.7	\$672.8	(\$135.1)	(20.1%)
2009 Totals	\$349.8	\$474.2	(\$124.3)	(26.2%)
2010 Totals	\$220.2	\$327.3	(\$107.1)	(32.7%)
2011 Totals	\$167.4	\$299.4	(\$131.9)	(44.1%)
2012 Totals	\$118.8	\$274.6	(\$155.8)	(56.7%)
2013 Totals	\$152.3	\$235.9	(\$83.6)	(35.4%)

\* Historical projections for 2001-2003 do not reflect periodic revisions. 2002: the last revision for 2002 projected \$271 million of capital spending for the year. 2003: the last revision for 2003 projected a total of \$287.5 million.

\*\* Projection reflects December 2005 budget amendment.

## Exhibit B-1 Airport System Revenue Bonds Summary of Outstanding Bonds

**Security:** General Airport Revenue Bonds ("GARB") are secured by the pledge of Net Airport Revenues  
**Lien:** Senior  
**Credit Ratings:**

	<u>Rating</u>	<u>Outlook</u>	<u>As of</u>

## Exhibit B-2 Airport System Revenue Bonds Refunding Monitor

### Current Refunding Opportunities

There are no current refunding opportunities at this time.

### Advance Refunding Candidates – Non-AMT

There are no advance refunding opportunities at this time<sup>4</sup>.

### Refunding Candidates – AMT

The Series 2005A-B and 2005D Bonds may NOT be advance refunded with the proceeds of tax-exempt bonds. However, it is illustrative to consider hypothetical advance refunding results to use as a benchmark in evaluating the efficiency of other refunding strategies. The table below illustrates results of hypothetical AMT advance refundings.

<i>Series</i>	<i>Callable Par/ Maturities</i>	<i>Range of Interest Rates</i>	<i>Call Date</i>	<i>Call Premium</i>	<i>Savings Required</i>	<i>Net PV Savings</i>	<i>Negative Arbitrage</i>
2005A AMT	\$227,455,000 (2016-2035)	4.25% - 5.25%	10/1/2015	0% (at par)	1%	\$14.2 mm; 6.3% \$227.4 mm refunded	\$7.2 mm
2005B Non-AMT	\$10,890,000 (2016-2020)	4.00% - 5.25%	10/1/2015	0% (at par)	1%	\$0.9 mm; 8.3% \$10.9 mm refunded	\$0.1 mm
2005D Non-AMT	\$7,650,000 (2021-2023)	5.00%	10/1/2015	0% (at par)	1%	\$1.0 mm; 13.6% \$7.6 mm refunded	\$0.2 mm

Since these bonds may not be advance refunded with tax-exempt bonds, alternative strategies include, but are not limited to, taxable advance or forward refundings.

### Refunding Candidates – Taxable

The Series 2005C Bonds may be advance refunded with the proceeds of taxable bonds.

<i>Series</i>	<i>Callable Par/ Maturities</i>	<i>Range of Interest Rates</i>	<i>Call Date</i>	<i>Call Premium</i>	<i>Savings Required</i>	<i>Net PV Savings</i>	<i>Negative Arbitrage</i>
2005C Taxable	\$30,000,000 (2020-2035)	5.59% - 5.73%	10/1/2015	0% (at par)	1%	\$2.1 mm; 7.0% \$30.0 mm refunded	\$1.3 mm

Below are the refunding guidelines previously accepted by the Board:

<b>Time Between Call Date and Issuance of Refunding Bonds</b>	<b>Traditional Financing Products Minimum PV % Savings</b>	<b>Non-Traditional Financing Products Minimum PV % Savings</b>
0 to 90-days (Current)	Greater of Call Premium or 1%	Call Premium + 1% - 2%
90-days to 1-year	Call Premium + 1%	Call Premium + 2% - 3%
1-year to 2-years	Call Premium + 2%	Call Premium + 3% - 4%
> 2-years	Call Premium + 3%	Call Premium + 4% - 5%

<sup>4</sup> The Series 2005B, Series 2005D, Series 2006C, Series 2012B and Series 2013C are non-AMT. However, they may not be advance refunded since the proceeds were used to advance refund other Airports Authority Bonds. The Non-AMT Bonds (2009B, 2009C, 2010A, 2010F1) were issued as private activity Non-AMT Bonds and cannot be advance refunded. The 2011D Bonds were issued as a current refunding but given the length of time to the call date is not a viable refunding candidate.

## Exhibit C-1 Variable Rate Programs - Overview

### Summary of Dealers, Credit Enhancement and Bank Facilities.

#### *Details of Dealers.*

<i>Dealer</i>	<i>Program/ Series</i>	<i>Amount (\$MM)</i>	<i>Remarketing Fees</i>
<i>Merrill Lynch</i>	CP: Series Two*	Up to \$200	0.05%
<i>Bank of America</i>	Index Floater: 2003 D1 Bonds	\$59.750	None
<i>Bank of America</i>	VRDO: 2009D Bonds**	\$125.205	0.08 – 0.10%
<i>Barclays</i>	VRDO: 2010C Bonds	\$156.265	0.08%
<i>Wells Fargo</i>	Index Floater: 2010D Bonds	\$158.780	None
<i>Wells Fargo</i>	Index Floater: 2011A Bonds	\$210.135	None
<i>PNC</i>	Index Floater: 2011B Bonds	\$173.185	None

\* The CP Series One has been suspended and the CP Series Two is authorized to be issued up to \$200 million effective March 6, 2014.

\*\* The Series 2009D Bonds in a daily mode have a 0.10 percent remarketing fee and those bonds in a weekly mode have a 0.08 percent remarketing fee.

<sup>8</sup> On December 18, 2012, Bank of America purchased the 2003D-1 Bonds as Indexed Floaters. On April 16, 2009, Wells Fargo took over the remarketing of the 2003D-1 Bonds from Goldman Sachs.

<sup>9</sup> On April 23, 2009, Morgan Keegan took over the remarketing of the 2003D-2 Bonds from Morgan Stanley; on July 30, 2009, Wachovia took over the remarketing from Morgan Keegan and became the LoC Provider replacing Regions Bank. As of October 1, 2010, the 2003D-2 Bonds were no longer outstanding.

<sup>10</sup> Bank of America replaced UBS as Remarketing Agent in April 2008.

Note: 2011B was previously a fixed spread to SIFMA and was not tracked here. It is now a spread to 72% of LIBOR and will be tracked here once there is three months of data available.

## Exhibit D-1 Swap Profile

The table below summarizes the Airports Authority's current swap profile. All of the Airports Authority's swaps call for a fixed rate to be paid by the Airports Authority to the counterparty and a variable rate to be received by the Airports Authority based upon 72 percent of LIBOR.

Trade Date	Effective Date	Termination Date ("final maturity")	Swap Providers	Ratings Moody's/S&P/ Fitch	Outstanding Notional Amount (\$millions)	Hedged Series	Current Termination Value <sup>11</sup>	Fixed Rate
7/31/01	8/29/02	10/1/21	Bank of America	A2/A/A	\$38.8	2011A-2	(4,999,000)	4.445%
6/15/06	10/1/09	10/1/39	JPMorgan Chase Bank of America	Aa3/A+/A+ A2/A/A	\$173.9 <u>\$100.6</u> \$274.5	2011A-3 2009D 2010C2	(\$44,307,000) <u>(\$25,331,000)</u> (\$69,638,000)	4.099%
6/15/06	10/1/10	10/1/40	Wells Fargo	Aa3/AA-/AA-	\$158.8	2010D	(\$41,798,000)	4.112%
5/13/05	10/1/11	10/1/39	Wells Fargo	Aa3/AA-/AA-	<u>\$118.7</u>	2011A-1	<u>(\$25,205,000)</u>	3.862%
<b>Aggregate Swaps</b>					\$590.8		(\$141,641,000)	

The table below presents the all-in effective rate of the swaps. The 2002, 2010 and 2011 swaps hedge only indexed floaters. The 2009 swaps hedge both indexed floaters and VRDOs (separate all-in effective rates are presented for each). The interest rate paid on each of the indexed floaters is equal to 72 percent of LIBOR plus an agreed upon spread. The effective rate is therefore equal to the fixed swap rate plus the agreed upon spread (82 basis points on the 2011A Bonds and 32.5 basis points on the 2010D Bonds). In Exhibit D-2, we track the monthly performance and all-in effective rate of the 2009 swap in relation to the hedged VRDOs.

Effective Date	Notional Amount (\$millions)	Hedged Series	Fixed Rate	All-In Effective Rate*
8/29/02	\$43.3	2011A-2 (Indexed Floaters)	4.445%	5.265%**
10/1/09	\$54.1	2011A-3 (Indexed Floaters)	4.099%	4.919%**
10/1/09	\$226.0	2009D&2010C2 (VRDOs)	4.099%	4.939%
10/1/10	\$161.8	2010D (Indexed Floaters)	4.112%	4.437%
10/1/11	\$121.9	2011A-1 (Indexed Floaters)	3.862%	4.682%

\*The Effective Rate takes into account the agreed upon spread on indexed floaters and remarketing and bank facility costs on the VRDOs.

<sup>11</sup> Amounts as of September 30, 2014; A negative value represents a payment by the Airports Authority to the counterparty if the swap is terminated in the current market; a positive value represents a receipt by the Airports Authority if the swap is unwound in the current market.

## Exhibit D-2

### 2009 Swap Effective Interest Rate to-date and Monthly Performance

The Airports Authority's 2009 Swap is a fixed-payor interest rate swap. Under the 2009 Swap, (a) the Airports Authority pays a fixed rate, 4.099 percent, to the swap counterparty; (b) in return, the swap counterparty pays the Airports Authority a variable rate of interest equal to 72 percent of one-month LIBOR. This variable rate received from the counterparty was designed to closely correlate the interest rate the Airports Authority pays on the underlying variable rate bonds, thereby creating essentially fixed rate debt (synthetic fixed rate debt). The Swap Agreement was dated June 15, 2006, and effective October 1, 2009. The 2009 Swap counterparties were Bear Stearns and Bank of America. However, Bear Stearns was bought by JP Morgan in March 2008. The following table presents the 72 percent of one-month LIBOR rate received from the counterparties, the average monthly interest rate on the hedged variable rate bonds paid by the Airports Authority (excludes hedged indexed floaters), and the resulting effective all-in interest rate on the swap. The 2009 swap hedges the Series 2009D Bonds and the Series 2010C2 Bonds. The swap previously hedged the Series 2009A Bonds until these bonds were refunded by the 2011A-3 Indexed Floaters (the calculated effective rate does take into account the 2009A Bonds prior to being refinanced).

## Hedged VRDOs and Swaps

Period	1-month LIBOR <sup>12</sup>	72% 1-month LIBOR	Average All-In Aggregate Interest Rate <sup>13</sup>	Average Fixed Swap Rate	Effective Interest Rate <sup>14</sup>	All-In Effective Rate to Date

10/1/09 – 1/1/10	0.24%	0.17%	1.59%	4.099%	5.52%	5.52%

<sup>12</sup> One-month LIBOR is weighted average of weekly one-month LIBOR as reset each Tuesday for a Thursday effective date except for the Bank of America swap where the two London Banking Days are replaced by one London Banking Day.

<sup>13</sup> The 2009D-1 and 2010C-2 variable rate bonds are currently in a weekly mode, with interest rate resets each Wednesday for a Thursday effective date. The 2009D-2 variable rate bonds are currently in a daily mode. The 2009A variable rate bonds were in a weekly mode, with interest rate resets each Tuesday for a Wednesday effective date. The interest rate is the all-in interest rate including bank facility costs.

<sup>14</sup> Totals will not add due to the day count difference of 30/360-day basis for the fixed swap rate and actual/actual day basis for the floating swap rate.
