

OCTOBER 2015
FINANCIAL ADVISOR REPORT – THE AVIATION ENTERPRISE

INTRODUCTION

The Finance Committee has requested that the Financial Advisor provide a monthly report on the status of the financing of the Capital Construction Program (CCP) and any related issues concerning the Airports Authority's Aviation Enterprise capital financing activities. The Financial Advisor presents this Monthly Report, focusing on the specific debt management projects underway, the debt policy framework guiding these projects and the financing of the CCP in general.

DISCUSSION SUMMARY

This paper is organized as follows:

- I. Executive Summary
- II. Action Items
 - A. None
- III. Informational Items
 - A. Request for Proposals to Provide Underwriting Services
- IV. Monthly Update
 - A. CCP: Actuals vs. Projections
 - B. Short-term Liquidity Forecast
 - C. Variable Rate Programs
 - D. Swaps – Monthly Swap Performance

Exhibits

- A. Airports Authority's Capital Construction Program
- B. Airport System Revenue Bonds
 - Summary of Bonds Outstanding
 - Refunding Monitor
- C. Variable Rate Programs
 - Overview
 - Historical Performance
- D. Swap Program
 - Airports Authority Swap Profile
 - Historic Performance of Swaps

I. EXECUTIVE SUMMARY

Action Items

→ None to report.

Informational Items

→ ***Request for Proposals to Provide Underwriting Services.*** On October 22, the Request for Proposals (RFP) for investment banking firms to provide underwriter services was distributed. The Airports Authority expects to form a pool of underwriters from which a syndicate will be selected for the Series 2016 Bond issuance. Proposals were received on November 13. The Technical Evaluation Committee (TEC) will be evaluating the proposals and will provide a recommendation to the Finance Committee and Board in December.

II. ACTION ITEMS

No Action Items to report this month.

III. INFORMATIONAL ITEMS

(III.A) Request for Proposals to Provide Underwriting Services

On October 22, the Request for Proposals (RFP) for investment banking firms to provide underwriter services was distributed. The Airports Authority expects to form a pool of underwriters from which syndicates will be selected for the Series 2016 Bond issuance and for any subsequent issuances during the term of the contract awarded. The term of the contract shall be a period of three years with an extension option for one or more years at the discretion of the Airports Authority.

Proposals were received on November 13. The TEC will be evaluating the proposals and will provide a recommendation to the Finance Committee and Board in December.

IV. MONTHLY UPDATES

(IV.A) CCP: Actuals vs. Projections

Exhibit A sets forth the major 2001-2016 CCP projects underway at the Airports Authority, as well as historical CCP actual versus projected expenditures. For 2015, CCP expenditures are budgeted at \$248.8 million including construction and capitalized interest costs. Expenditures in October 2015 totaled \$3.2 million, including accrued capitalized interest expenditures.

2015 CCP Projections vs. Actuals (\$ millions)				
	<i>General Ledger Actual¹</i>	<i>Original Projection</i>	<i>Variance</i>	<i>Variance (%)</i>
15-Jan	\$4.00	\$14.51	(\$10.51)	(72.43%)
15-Feb	6.20	21.95	(15.75)	(71.75%)
15-Mar	8.00	19.03	(11.03)	(57.96%)
15-Apr	7.20	24.71	(17.51)	(70.86%)
15-May	4.80	15.69	(10.89)	(69.41%)
15-Jun	8.20	16.21	(8.01)	(49.41%)
15-Jul	7.70	23.93	(16.23)	(67.82%)
15-Aug	7.80	27.71	(19.91)	(71.85%)
15-Sep	10.90	19.94	(9.04)	(45.34%)
15-Oct	3.20	23.62	(20.42)	(86.45%)
15-Nov		20.73		
15-Dec		20.74		
2015 Totals (Thru October)	\$68.00	\$207.30	(\$139.30)	(67.20%)

¹ As provided by the Airports Authority.

(IV.B) Short-term Liquidity Forecast

The following (including the table and chart) is based on information provided to the Financial Advisors by Finance Staff.

As of the beginning of November 2015, the Airports Authority had \$178.9 million of cash-on-hand² and \$200 million of additional available liquidity in the form of undrawn CP Series Two capacity.

Short-term Liquidity Forecast (\$ millions)					
Beginning of Month	Cash Available	CP Available to Draw (End Bal)	PFCs	Grants	Projected Expenditures
Nov-15	178.91	200.00	3.06	1.04	(20.73)
Dec-15	162.28	200.00	3.06	1.04	(20.74)

² Cash-on-hand includes proceeds of the Series 2014A and 2015B Bonds and Funds 63 and 64.

(IV.C) Variable Rate Programs

In addition to approximately \$850.2 million of outstanding variable rate debt, the Airports Authority can issue up to \$200 million of CP Two Notes which are currently “on-the-shelf.”

Outstanding unhedged variable rate debt of \$276.4 million represents approximately 5.8 percent of the Airports Authority’s \$4.8 billion of outstanding indebtedness.

Gross Variable Rate Exposure

Fixed Rate Debt Percentage:			
Fixed Rate Debt		\$3,930,065,000	
2009D VRDOs (Hedged)		122,530,000	
2010C2 VRDOs (Hedged)		95,095,000	
2010D Index Floater (Hedged)		155,620,000	
2011A VRDOs (Hedged)		200,530,000	
	Fixed Rate	\$4,503,840,000	94.2%
Variable Rate Debt Percentage:			
2003D Index Floater		57,875,000	
2010C1 VRDOs		57,925,000	
2011B Index Floater		160,620,000	
CP Notes		0	
	Variable Rate	\$276,420,000	5.8%
	Combined Total	\$4,780,260,000	100.0%

The Airports Authority’s current unrestricted cash balances of \$752.2 million in short-term investments can be netted against variable rate debt exposure to produce a “net variable rate exposure”. Currently, unrestricted cash balances exceed the amount of unhedged short-term debt.

Exhibit C-2 illustrates for the current year rolling three-month average spreads to SIFMA of the Airports Authority’s variable rate programs, as well as historic spreads to SIFMA by quarter.

(IV.D) Swaps – Monthly Swap Performance

2002 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.445 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2002 Swap originally hedged the Series 2002C Bonds and now hedges the 2011A-2 which refunded the Series 2002C Bonds in full. On October 1, 2015, the Series 2011A-2 was converted from Index Floaters to Variable Rate Demand Obligations (VRDOs). **Exhibit D-2** provides the historical monthly cash flow history of the 2002 swaps associated with the hedged VRDOs.

2009 Swaps: Under the terms of the swap agreements, the Airports Authority pays to the counterparties an average fixed rate of 4.099 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparties 72 percent of one-month LIBOR based upon the outstanding notional amount of its respective swaps. The 2009 Swap originally hedged the Series 2009A Bonds and 2009D Bonds. The Series 2009A Bonds were partially refunded by the Series 2010C2 Bonds and the remaining portion was fully refunded by the Series 2011A-3 Bonds. The 2009 swaps now hedge the 2011A-3, 2009D and 2010C2 VRDOs. On October 1, 2015, the Series 2011A-3 was converted from Index Floaters to VRDOs. **Exhibit D-2** provides the historical monthly cash flow history of the 2009 swaps associated with the hedged VRDOs.

2010 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.112 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2010 Swap hedges the Series 2010D Index Floaters. The Airports Authority pays 72 percent of LIBOR plus 32.5 basis points on the Index Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 4.11 percent plus the spread of 32.5 basis points: 4.44 percent.

2011 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 3.862 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2011 Swap hedges the Series 2011A-1. On October 1, 2015, the Series 2011A-1 was converted from Index Floaters to VRDOs. **Exhibit D-2** provides the historical monthly cash flow history of the 2011 swaps associated with the hedged VRDOs.

Exhibit A
Airports Authority's CCP

Major projects under construction at Reagan National include:

- Runway 15-33 and 4-22 Runway Safety Area Enhancements

Major projects under construction at Dulles International include:

- Cargo Buildings 1-4 Exterior Rehabilitation;
- Hydrant Fuel Line Improvements;
- Taxiway B Reconstruction & Widening, East Section;
- Repair Runway 1R-19L & Associated Taxiways K4, K5 & K6; and
- Police Firing Range & Training Facility

Historical CCP Projections vs. Actuals (2001-2014) (\$ millions)

	<i>General Ledger Actual</i>	<i>Projection³</i>	<i>Variance</i>	<i>Variance (%)</i>
2001 Totals	\$370.8	\$429.8	(\$58.9)	(13.7%)
2002 Totals	\$295.6	\$346.5	(\$50.9)	(14.7%)
2003 Totals	\$282.7	\$321.9	(\$39.2)	(12.2%)
2004 Totals	\$349.3	\$349.9	(\$0.6)	(0.2%)
2005 Totals ⁴	\$555.8	\$574.4	(\$18.6)	(3.2%)
2006 Totals	\$672.2	\$713.2	(\$41.0)	(5.7%)
2007 Totals	\$719.4	\$689.7	\$29.7	4.3%
2008 Totals	\$537.7	\$672.8	(\$135.1)	(20.1%)
2009 Totals	\$349.8	\$474.2	(\$124.3)	(26.2%)
2010 Totals	\$220.2	\$327.3	(\$107.1)	(32.7%)
2011 Totals	\$167.4	\$299.4	(\$131.9)	(44.1%)
2012 Totals	\$118.8	\$274.6	(\$155.8)	(56.7%)
2013 Totals	\$152.3	\$235.9	(\$83.6)	(35.4%)
2014 Totals	\$113.0	\$209.5	(\$96.5)	(46.1%)

³ Historical projections for 2001-2003 do not reflect periodic revisions. 2002: the last revision for 2002 projected \$271 million of capital spending for the year. 2003: the last revision for 2003 projected a total of \$287.5 million.

⁴ Projection reflects December 2005 budget amendment.

Exhibit B-2
Airport System Revenue Bonds
Refunding Monitor

Refunding Candidates – Non-AMT

There are no current refunding opportunities at this time.

There are no advance refunding opportunities at this time.⁵

The Series 2006C bonds may not be advance refunded with tax exempt bonds. As a benchmark for evaluating refunding strategies, the table below shows the results of a hypothetical tax exempt advance refunding.

<i>Series</i>	<i>Callable Par/ Maturities</i>	<i>Range of Interest Rates</i>	<i>Call Date</i>	<i>Call Premium</i>	<i>Savings Required</i>	<i>Net PV Savings</i>	<i>Negative Arbitrage</i>
2006C Non-AMT	\$30,130,000 (2017-2032)	3.75% - 5.00%	10/01/16	0% (at par)	1%	\$3.15 mm 11.0%	\$0.54 mm

Refunding Candidates – AMT

There are no current refunding opportunities at this time.

The Series 2006A and 2006B bonds may not be advance refunded with tax exempt bonds. As a benchmark for evaluating refunding strategies, the table below shows the results of a hypothetical tax exempt advance refunding.

<i>Series</i>	<i>Callable Par/ Maturities</i>	<i>Range of Interest Rates</i>	<i>Call Date</i>	<i>Call Premium</i>	<i>Savings Required</i>	<i>Net PV Savings</i>	<i>Negative Arbitrage</i>
2006A AMT	\$153,555,000 (30-32,34-35)	4.75% - 5.00%	10/01/16	0% (at par)	1%	\$13.39 mm 8.7%	\$4.64 mm
2006B AMT	\$284,320,000 (31-32,34-36)	4.55% - 5.00%	10/01/16	0% (at par)	1%	\$20.27 mm 7.1%	\$8.83 mm

Refunding Candidates – Taxable

There are no taxable refunding candidates at this time.⁶

⁵ The Series 2006C, Series 2012B and Series 2013C Bonds are Non-AMT. However, they may not be advance refunded since the proceeds were used to advance refund other Airports Authority Bonds. The Series 2009B, Series 2009C, Series 2010A and Series 2010F1 Bonds were issued as private activity Non-AMT Bonds and cannot be advance refunded. The Series 2011D Bonds are advance refundable, but given the length of time to the call date, they are not a viable refunding candidate at this time.

⁶ The Series 2013B and Series 2015D Bonds are Taxable and advance refundable. However, the Series 2013B Bonds can only be called prior to maturity with a make whole call provision, and the Series 2015D Bonds, given the length of time to the call date, are not a viable refunding candidate at this time.

Below are the refunding guidelines previously accepted by the Board:

Time Between Call Date and Issuance of Refunding Bonds	Traditional Financing Products Minimum PV % Savings	Non-Traditional Financing Products Minimum PV % Savings
0 to 90-days (Current)	Greater of Call Premium or 1%	Call Premium + 1% - 2%
90-days to 1-year	Call Premium + 1%	Call Premium + 2% - 3%
1-year to 2-years	Call Premium + 2%	Call Premium + 3% - 4%
> 2-years	Call Premium + 3%	Call Premium + 4% - 5%

⁷ On October 1, 2015, Wells Fargo purchased the 2003D-1 Bonds as Index Floaters. On December 18, 2012, Bank of America purchased the 2003D-1 Bonds as Index Floaters. On April 16, 2009, Wells Fargo took over the remarketing of the 2003D-1 Bonds from Goldman Sachs.

⁸ On September 22, 2015, the 2010C1 was converted from 2-day to weekly VRDOs.

⁹ On October 1, 2015, the 2011A was converted from Wells Fargo Index Floaters to weekly VRDOs remarketed by RBC.

¹⁰ On July 15, 2015, the Commercial Paper Two was refunded in its entirety.

¹¹ On April 23, 2009, Morgan Keegan took over the remarketing of the 2003D-2 Bonds from Morgan Stanley; on July 30, 2009, Wachovia took over the remarketing from Morgan Keegan and became the LoC Provider replacing Regions Bank. As of October 1, 2010, the 2003D-2 Bonds were no longer outstanding.

¹² Bank of America replaced UBS as Remarketing Agent in April 2008.

The following tables illustrate (i) rolling three-month average spreads to SIFMA, and (ii) rolling 12-month average spread to SIFMA excluding credit and remarketing fees.

¹⁸ Bank of America replaced UBS as Remarketing Agent in April 2008.

Exhibit D-1
Swap Program
Airports Authority Swap Profile

The table below summarizes the Airports Authority's current swap portfolio. All of the Airports Authority's swaps require payment of a fixed rate by the Airports Authority to the counterparty and the receipt of a variable rate by the Airports Authority based upon 72 percent of LIBOR.

Trade Date	Effective Date	Termination Date ("final maturity")	Swap Providers	Ratings Moody's/S&P/ Fitch	Outstanding Notional Amount (\$millions)	Hedged Series	Current Termination Value (\$millions) ¹⁹	Fixed Rate
7/31/01	8/29/02	10/1/21	Bank of America	A2/A/A	\$34.0	2011A-2	(\$4.1)	4.445%
6/15/06	10/1/09	10/1/39	JPMorgan Chase Bank of America	Aa3/A+/A+ A2/A/A	\$170.1 <u>\$98.5</u> \$268.6	2011A-3 2009D 2010C2	(\$53.7) <u>(\$30.0)</u> (\$83.7)	4.099%
6/15/06	10/1/10	10/1/40	Wells Fargo	Aa3/AA-/AA-	\$155.6	2010D	(\$51.1)	4.112%
9/12/07	10/1/11	10/1/39	Wells Fargo	Aa3/AA-/AA-	<u>\$115.5</u>	2011A-1	<u>(\$30.7)</u>	3.862%
Aggregate Swaps					\$573.8		(\$169.6)	

The table below presents the all-in effective rate of the swaps. The 2010 swap hedges only index floaters. The interest rate paid on the index floaters is equal to 72 percent of LIBOR plus an agreed upon spread. The effective rate is therefore equal to the fixed swap rate plus the agreed upon spread (32.5 basis points on the 2010D Bonds). In Exhibit D-2, we track the monthly performance and all-in effective rate of the 2002, 2009 and 2011 swaps in relation to the hedged VRDOs.

Effective Date	Notional Amount (\$millions)	Hedged Series	Fixed Rate	All-In Effective Rate*
8/29/02	\$34.0	2011A-2 (VRDOs)	4.445%	4.662%
10/1/09	\$268.6	2011A-3,2009D,2010C2 (VRDOs)	4.099%	4.904%
10/1/10	\$155.6	2010D (Index Floaters)	4.112%	4.437%
10/1/11	\$115.5	2011A-1 (VRDOs)	3.862%	4.079%

**The Effective Rate takes into account the agreed upon spread on index floaters and remarketing and bank facility costs on the VRDOs.*

¹⁹ Amounts as of October 30, 2015; A negative value represents a payment by the Airports Authority to the counterparty if the swap is terminated in the current market; a positive value represents a receipt by the Airports Authority if the swap is unwound in the current market.

Exhibit D-2
Swap Program
Swap Effective Interest Rate to-date and Monthly Performance

2002 Swap: The Airports Authority's 2002 Swap is a fixed-payor interest rate swap. Under the 2002 Swap, (a) the Airports Authority pays a fixed rate of interest, 4.445 percent, to the swap counterparty; and (b) in return, the swap counterparty pays the Airports Authority a variable rate of interest equal to 72 percent of one-month LIBOR. The variable rate received from the counterparty is designed to closely correlate to the interest rate the Airports Authority pays on the underlying variable rate bonds, thereby creating essentially fixed rate debt ("synthetic" fixed rate debt). The Swap Agreement was dated July 31, 2001, and became effective August 29, 2002. The 2002 swap counterparty is Bank of America. The 2002 Swap hedges the 2011A-2. The swap previously hedged the Series 2002C Bonds until these bonds were refunded by the 2011A-2 Bonds. On October 1, 2015, the Series 2011A-2 was converted from Index Floaters to VRDOs.

2009 Swap: The Airports Authority's 2009 Swap is a fixed-payor interest rate swap. Under the 2009 Swap: (a) the Airports Authority pays a fixed rate of interest, 4.099 percent, to the swap counterparty; and (b) in return, the swap counterparty pays the Airports Authority a variable rate of interest equal to 72 percent of one-month LIBOR, thereby creating synthetic fixed rate debt. The Swap Agreement was dated June 15, 2006, and became effective on October 1, 2009. The 2009 Swap counterparties were Bear Stearns and Bank of America. However, Bear Stearns was bought by JP Morgan in March 2008. The 2009 swap hedges the Series 2011A-3 Bonds, Series 2009D Bonds and the Series 2010C2 Bonds. The swap previously hedged the Series 2009A Bonds until these bonds were refunded by the 2011A-3 Bonds (the calculated effective rate does take into account the 2009A Bonds prior to their refinancing). On October 1, 2015, the Series 2011A-3 was converted from Index Floaters to VRDOs.

2011 Swap: The Airports Authority's 2011 Swap is a fixed-payor interest rate swap. Under the 2011 Swap, (a) the Airports Authority pays a fixed rate of interest, 3.862 percent, to the swap counterparty; and (b) in return, the swap counterparty pays the Airports Authority a variable rate of interest equal to 72 percent of one-month LIBOR, thereby creating synthetic fixed rate debt. The Swap Agreement was dated September 12, 2007, and became effective October 1, 2011. The 2011 swap counterparty is Wells Fargo. The 2011 Swap hedges the 2011A-1. On October 1, 2015, the Series 2011A-1 was converted from Index Floaters to VRDOs.

The following table presents the 72 percent of one-month LIBOR rate received from the counterparties, the average monthly interest rate on the hedged variable rate bonds paid by the Airports Authority, and the resulting effective all-in interest rate on the swap.

Hedged VRDOs and Swaps
