

METROPOLITAN WASHINGTON AIRPORTS AUTHORITY

RFP-19-11458 Live Fire Training Facility Improvements

June 24, 2019

Questions and Answers

Notice: The Answer to Question 25 issued June 17, 2019 is hereby revised:

25. Question: Will the existing Cistern be emptied prior to the bid to allow for access and assessment of leaks, or is the initial scope of this RFP to price out emptying and assessing the tank after award to determine what type of leaks if any exist? This would be with the understanding that any remediation costs would be outside of the initial scope of work.

Answer: Cistern holding tank will be emptied by MWAA before Notice-to-Proceed. The offeror is to bid on tank evaluation on leaks and provide leak repairs as needed per the SOW.
