

JULY 2015
FINANCIAL ADVISOR REPORT – THE AVIATION ENTERPRISE

INTRODUCTION

The Finance Committee has requested that the Financial Advisor for the Aviation Enterprise provide a monthly report on the status of the financing of the Capital Construction Program (CCP) and any related issues concerning the Airports Authority's Aviation Enterprise capital financing activities. The Financial Advisor presents this Monthly Report, focusing on the specific debt management projects underway, the debt policy framework guiding these projects and the financing of the CCP in general.

DISCUSSION SUMMARY

This paper is organized as follows:

- I. Executive Summary
- II. Action Items
 - A. None
- III. Informational Items
 - A. Series 2015B-D Financing
 - B. Expiring Bank Facilities
- IV. Monthly Update
 - A. CCP: Actuals vs. Projections
 - B. Short-term Liquidity Forecast
 - C. Variable Rate Programs
 - D. Swaps – Monthly Swap Performance

Exhibits

- A. Airports Authority's Capital Construction Program
- B. Airport System Revenue Bonds
 - Summary of Bonds Outstanding
 - Refunding Monitor
- C. Variable Rate Programs
 - Overview
 - Historical Performance
- D. Swap Program
 - Airports Authority Swap Profile
 - Historic Performance of 2009 Swaps

I. EXECUTIVE SUMMARY

Action Items

- None to report.

Informational Items

- **Series 2015B-D Financing.** On June 30, Morgan Stanley, the Airports Authority's book running senior manager, priced on behalf of the syndicate \$345.7 million of Series 2015B-D new money and refunding bonds. Proceeds of the new money bonds will fund expected CCP expenditures through July 2016. Proceeds of the refunding bonds will refund the Series 2005A, 2005B, 2005C and 2005D Bonds and outstanding commercial paper. The refunding of the fixed rate bonds produces total gross savings of \$33.9 million or \$25.0 million on a present value basis, which equates to 8.8 percent of the refunded par amount. In association with issuance of the Series 2015B-D Bonds, the rating agencies affirmed the Airports Authority's credit ratings of A1 (stable), AA- (stable) and AA- (stable) from Moody's, S&P and Fitch. The all-in True Interest Cost for the Series 2015B-D Bonds is 4.07 percent. The Series 2015B-D transaction will close on July 15, 2015.
- **Expiring Bank Facilities.** On May 21, the Airports Authority solicited interest from banks regarding the replacement or renewal of existing bank facilities. The Airports Authority has three bank facilities totaling \$426 million that expire over the next two years: one expires in September 2015 and two expire in 2016. On June 12, 2015, twelve banks submitted proposals, eleven of which offered to provide a Letter of Credit and six of which offered a direct loan index floater. The choice of product and bank recommendations will be presented to the Finance Committee and Board at the September meetings. The Airports Authority targets closing on the new or extended bank facilities in September 2015.

II. ACTION ITEMS

No Action Items to report this month.

III. INFORMATIONAL ITEMS

(III.A) Series 2015B-D Financing

On June 30, Morgan Stanley, the Airports Authority's book running senior manager, priced on behalf of the syndicate \$345.7 million of Series 2015B-D new money and refunding bonds. Proceeds of the new money bonds will fund CCP expenditures through July 2016. Proceeds of the refunding bonds will refund the Series 2005A, 2005B, 2005C and 2005D Bonds and outstanding Commercial Paper. The Series 2015B-D transaction will close on July 15, 2015. A summary of the transaction is shown in the table below.

Series	Par Issued (\$millions)	Series Refunded	Refunded Par (\$millions)	PV Savings (\$millions)	PV Savings (%)
2015B Refunding	\$204.725	2005A	\$234.810	\$19.643	8.4%
2015C Refunding	10.325	2005B	12.800	1.040	8.1%
2015C Refunding	6.690	2005D	7.650	1.179	15.4%
2015D Refunding	30.490	2005C	30.000	3.180	10.6%
2015B New Money	74.510	--	--	--	--
2015C CP Takeout	18.960	--	--	--	--
Total	\$345.700		\$285.260	\$25.042	8.8%

Refunding Results. The refunding produces total gross savings of \$33.9 million or \$25.0 million on a present value basis, which equates to 8.8 percent of refunded par. Annual debt service savings in the near term are \$7.2 million from 2016 through 2019 and \$1.4 million from 2020 through 2021.

New Money Results. The new money portion of the Series 2015B Bonds was issued in the par amount of \$74.5 million. Proceeds will fund expected CCP expenditures and capitalized interest through July 2016.

Ratings. As part of the transaction process for the Series 2015B-D Bonds, the rating agencies affirmed the Airports Authority's credit ratings:

Moody's: A1 (stable)

S&P: AA- (stable)

Fitch: AA- (stable)

Sales Details. Despite volatility in the market reflecting financial uncertainty in Greece and in Puerto Rico, demand for the Airports Authority's bonds was steady throughout the order period. In total, the underwriting syndicate generated \$438 million of orders from 43 institutional investors plus an additional \$9.3 million in retail orders. Demand for the

Airports Authority's bonds allowed the underwriters to lower interest rates which resulted in an attractive overall borrowing cost of 4.07 percent.

(III.B) Expiring Bank Facilities

The Barclays letter of credit that supports the Series 2010C Bonds expires in September 2015. Two other bank facilities are scheduled to expire in 2016: the Bank of America and Wells Fargo facilities supporting the Series 2003D Bonds and the Series 2011A Bonds, respectively. These three bank facilities total \$426 million.

<i>Bank Provider</i>	<i>Facility</i>	<i>Program/ Series</i>	<i>Amount (\$MM)</i>	<i>Costs (bps)</i>	<i>Expiration Date</i>
Barclays Capital	LOC	2010 C VRDO	\$156.265	70.0	September 23, 2015
Bank of America	Index Floater	2003 D1	\$59.750	70.0*	December 16, 2016
Wells Fargo	Index Floater	2011A	\$210.135	82.0*	September 21, 2016

* Fixed spread to the 72 percent of LIBOR Index.

On May 21 the Airports Authority issued a Request for Proposals (RFP) to qualified financial institutions. On June 12, 2015, twelve banks submitted proposals, eleven of which offered to provide a Letter of Credit and six of which offered a direct loan index floater. The choice of product and bank recommendations will be presented to the Finance Committee and Board at the September meetings. The Airports Authority targets closing on the new or extended bank facilities in September 2015.

Date	Task
July 15	Procurement status update
September 16	Product/Bank recommendation to the Finance Committee and Board for approval of substantially final transaction documents
September 22	Close

IV. MONTHLY UPDATES

(IV.A) CCP: Actuals vs. Projections

Exhibit A sets forth the major 2001-2016 CCP projects underway at the Airports Authority, as well as historical CCP actual versus projected expenditures. For 2015, CCP expenditures are budgeted at \$248.8 million including construction and capitalized interest costs. Expenditures in June 2015 totaled \$8.2 million including accrued capitalized interest expenditures.

2015 CCP Projections vs. Actuals				
(\$ millions)				
	<i>General Ledger Actual¹</i>	<i>Original Projection</i>	<i>Variance</i>	<i>Variance (%)</i>
15-Jan	\$4.00	\$14.51	(\$10.51)	(72.43%)
15-Feb	6.20	21.95	(15.75)	(71.75%)
15-Mar	8.00	19.03	(11.03)	(57.96%)
15-Apr	7.20	24.71	(17.51)	(70.86%)
15-May	4.80	15.69	(10.89)	(69.41%)
15-Jun	8.20	16.21	(8.01)	(49.41%)
15-Jul		23.93		
15-Aug		27.71		
15-Sep		19.94		
15-Oct		23.62		
15-Nov		20.73		
15-Dec		20.74		
2015 Totals (Thru June)	\$38.40	\$112.10	(\$73.70)	(65.74%)

¹ As provided by the Airports Authority.

(IV.B) Short-term Liquidity Forecast

The following (including the table and chart) is based on information provided to the Financial Advisors by Finance Staff.

As of the beginning of July 2015, the Airports Authority had \$119.6 million of cash-on-hand² and \$179 million of additional available liquidity in the form of undrawn CP Series Two capacity.

Short-term Liquidity Forecast (\$ millions)					
Beginning of Month	Cash Available	CP Available to Draw (End Bal)	PFCs	Grants	Projected Expenditures
Jul-15	119.64	179.00	3.06	1.04	(23.93)
Aug-15	99.81	179.00	3.06	1.04	(27.71)
Sep-15	76.20	179.00	3.06	1.04	(19.94)
Oct-15	60.36	179.00	3.06	1.04	(23.62)
Nov-15	40.84	179.00	3.06	1.04	(20.73)
Dec-15	24.21	179.00	3.06	1.04	(20.74)

Note: the table above does not reflect the new money bond sale in 2015

² Cash-on-hand includes proceeds of the Series 2014A Bonds received in July and Funds 63 and 64.

(IV.C) Variable Rate Programs

In addition to approximately \$883.3 million of outstanding variable rate debt, the Airports Authority can issue up to \$200 million of CP Two Notes which are currently “on-the-shelf.”

Outstanding unhedged variable rate debt of \$292.5 million represents approximately 6.0 percent of the Airports Authority’s \$4.9 billion of outstanding indebtedness.

Gross Variable Rate Exposure

Fixed Rate Debt Percentage:			
Fixed Rate Debt	\$4,028,490,000		
2009D VRDOs (Hedged)	125,205,000		
2010C2 VRDOs (Hedged)	96,690,000		
2010D Index Floater (Hedged)	158,775,000		
2011A Index Floater (Hedged)	210,135,000		
Fixed Rate	\$4,619,295,000		94.0%
Variable Rate Debt Percentage:			
2003D Index Floater	59,750,000		
2010C1 VRDOs	59,575,000		
2011B Index Floater	173,185,000		
CP Notes	0		
Variable Rate	\$292,510,000		6.0%
Combined Total	\$4,911,805,000		100.0%

The Airports Authority’s current unrestricted cash balances of \$709.5 million in short-term investments can be netted against variable rate debt exposure to produce a “net variable rate exposure”. Currently, unrestricted cash balances exceed the amount of unhedged short-term debt.

Exhibit C-2 illustrates for the current year rolling three-month average spreads to SIFMA of the Airports Authority’s variable rate programs, as well as historic spreads to SIFMA by quarter.

(IV.D) Swaps – Monthly Swap Performance

2002 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.45 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2002 Swap originally hedged the Series 2002C Bonds and now hedges the 2011A-2 Indexed Floaters which refunded the Series 2002C Bonds in full. The Airports Authority pays 72 percent of LIBOR plus 82 basis points on the Indexed Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 4.45 percent plus the spread of 82 basis points: 5.27 percent.

2009 Swaps: Under the terms of the swap agreements, the Airports Authority pays to the counterparties an average fixed rate of 4.10 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparties 72 percent of one-month LIBOR based upon the outstanding notional amount of its respective swaps. The 2009 Swap originally hedged the Series 2009A Bonds and 2009D Bonds. The Series 2009A Bonds were partially refunded by the Series 2010C2 Bonds and the remaining portion was fully refunded by the Series 2011A-3 Bonds. The 2009 swaps now hedge the 2011A-3 Indexed Floaters and the 2009D and 2010C2 Variable Rate Demand Obligations (VRDOs). On the Indexed Floaters, the Airports Authority pays 72 percent of LIBOR plus 82 basis points. The effective rate of the swap related to these Bonds is therefore equal to the fixed swap rate of 4.10 percent plus the spread of 82 basis points: 4.92 percent. **Exhibit D-2** provides the historical monthly cash flow history of the 2009 swaps associated with the hedged VRDOs (currently the 2009D and 2010C2).

2010 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 4.11 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2010 Swap hedges the Series 2010D Indexed Floaters. The Airports Authority pays 72 percent of LIBOR plus 32.5 basis points on the Indexed Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 4.11 percent plus the spread of 32.5 basis points: 4.44 percent.

2011 Swap: Under the terms of the swap agreement, the Airports Authority pays to the counterparty a fixed rate of 3.86 percent on the outstanding notional amount of the swap. In return, the Airports Authority receives from the counterparty 72 percent of one-month LIBOR based upon the outstanding notional amount of the swap. The 2011 Swap hedges the Series 2011A-1 Indexed Floaters. The Airports Authority pays 72 percent of LIBOR plus 82 basis points on the Indexed Floaters. The effective rate of the swap is therefore equal to the fixed swap rate of 3.86 percent plus the spread of 82 basis points: 4.68 percent.

Exhibit A
Airports Authority's CCP

Major projects under construction at Reagan National include:

- Runway 15-33 and 4-22 Runway Safety Area Enhancements

Major projects under construction at Dulles International include:

- East and West Baggage Basement In Line High Volume Baggage Screening;
- Cargo Buildings 1-4 Exterior Rehabilitation;
- Dedicated Fire System Surge Prevention;
- Hydrant Fuel Line Improvements; and
- Combined Taxilane C and Taxiway Z Reconstruction

Historical CCP Projections vs. Actuals (2001-2014) (\$ millions)

	<i>General Ledger Actual</i>	<i>Projection¹</i>	<i>Variance</i>	<i>Variance (%)</i>
2001 Totals	\$370.8	\$429.8	(\$58.9)	(13.7%)
2002 Totals	\$295.6	\$346.5	(\$50.9)	(14.7%)
2003 Totals	\$282.7	\$321.9	(\$39.2)	(12.2%)
2004 Totals	\$349.3	\$349.9	(\$0.6)	(0.2%)
2005 Totals ²	\$555.8	\$574.4	(\$18.6)	(3.2%)
2006 Totals	\$672.2	\$713.2	(\$41.0)	(5.7%)
2007 Totals	\$719.4	\$689.7	\$29.7	4.3%
2008 Totals	\$537.7	\$672.8	(\$135.1)	(20.1%)
2009 Totals	\$349.8	\$474.2	(\$124.3)	(26.2%)
2010 Totals	\$220.2	\$327.3	(\$107.1)	(32.7%)
2011 Totals	\$167.4	\$299.4	(\$131.9)	(44.1%)
2012 Totals	\$118.8	\$274.6	(\$155.8)	(56.7%)
2013 Totals	\$152.3	\$235.9	(\$83.6)	(35.4%)
2014 Totals	\$113.0	\$209.5	(\$96.5)	(46.1%)

1) Historical projections for 2001-2003 do not reflect periodic revisions. 2002: the last revision for 2002 projected \$271 million of capital spending for the year. 2003: the last revision for 2003 projected a total of \$287.5 million.

2) Projection reflects December 2005 budget amendment.

Exhibit B-2
Airport System Revenue Bonds
Refunding Monitor

Refunding Candidates – Non-AMT

The Series 2005B and 2005D Bonds are callable on October 1, 2015 at par. These bonds were refunded on a current basis by the Series 2015C Bonds upon the settlement date of July 15, 2015.

There are no advance refunding opportunities at this time.³

Refunding Candidates – AMT

The Series 2005A Bonds are callable on October 1, 2015 at par. These bonds were refunded on a current basis by the Series 2015B Bonds upon the settlement date of July 15, 2015.

Refunding Candidates – Taxable

The Series 2005C Bonds are callable on October 1, 2015 at par. These bonds were refunded on a current basis by the Series 2015D Bonds upon the settlement date of July 15, 2015.

Below are the refunding guidelines previously accepted by the Board:

Time Between Call Date and Issuance of Refunding Bonds	Traditional Financing Products Minimum PV % Savings	Non-Traditional Financing Products Minimum PV % Savings
0 to 90-days (Current)	Greater of Call Premium or 1%	Call Premium + 1% - 2%
90-days to 1-year	Call Premium + 1%	Call Premium + 2% - 3%
1-year to 2-years	Call Premium + 2%	Call Premium + 3% - 4%
> 2-years	Call Premium + 3%	Call Premium + 4% - 5%

³ The Series 2006C, Series 2012B and Series 2013C Bonds are Non-AMT. However, they may not be advance refunded since the proceeds were used to advance refund other Airports Authority Bonds. The Series 2009B, Series 2009C, Series 2010A and Series 2010F1 Bonds were issued as private activity Non-AMT Bonds and cannot be advance refunded. The Series 2011D Bonds are advance refundable, but given the length of time to the call date, they are not a viable refunding candidate at this time.

⁷ On December 18, 2012, Bank of America purchased the 2003D-1 Bonds as Indexed Floaters. On April 16, 2009, Wells Fargo took over the remarketing of the 2003D-1 Bonds from Goldman Sachs.

⁸ On April 23, 2009, Morgan Keegan took over the remarketing of the 2003D-2 Bonds from Morgan Stanley; on July 30, 2009, Wachovia took over the remarketing from Morgan Keegan and became the LoC Provider replacing Regions Bank. As of October 1, 2010, the 2003D-2 Bonds were no longer outstanding.

⁹ Bank of America replaced UBS as Remarketing Agent in April 2008.

Exhibit D-1
Swap Program
Airports Authority Swap Profile

The table below summarizes the Airports Authority's current swap portfolio. All of the Airports Authority's swaps require payment of a fixed rate by the Airports Authority to the counterparty and the receipt of a variable rate by the Airports Authority based upon 72 percent of LIBOR.

Trade Date	Effective Date	Termination Date ("final maturity")	Swap Providers	Ratings Moody's/S&P/ Fitch	Outstanding Notional Amount (\$millions)	Hedged Series	Current Termination Value ¹⁰	Fixed Rate
7/31/01	8/29/02	10/1/21	Bank of America	A2/A/A	\$38.8	2011A-2	(\$4,649,000)	4.445%
6/15/06	10/1/09	10/1/39	JPMorgan Chase Bank of America	Aa3/A+/A+ A2/A/A	\$173.9 <u>\$100.6</u> \$274.5	2011A-3 2009D 2010C2	(\$53,281,000) <u>(\$30,896,000)</u> (\$84,177,000)	4.099%
6/15/06	10/1/10	10/1/40	Wells Fargo	Aa3/AA-/AA-	\$158.8	2010D	(\$50,467,000)	4.112%
9/12/07	10/1/11	10/1/39	Wells Fargo	Aa3/AA-/AA-	<u>\$118.7</u>	2011A-1	<u>(\$30,416,000)</u>	3.862%
Aggregate Swaps					\$590.8		(\$169,709,000)	

The table below presents the all-in effective rate of the swaps. The 2002, 2010 and 2011 swaps hedge only indexed floaters. The 2009 swaps hedge both indexed floaters and VRDOs (separate all-in effective rates are presented for each). The interest rate paid on each of the indexed floaters is equal to 72 percent of LIBOR plus an agreed upon spread. The effective rate is therefore equal to the fixed swap rate plus the agreed upon spread (82 basis points on the 2011A Bonds and 32.5 basis points on the 2010D Bonds). In Exhibit D-2, we track the monthly performance and all-in effective rate of the 2009 swap in relation to the hedged VRDOs.

Effective Date	Notional Amount (\$millions)	Hedged Series	Fixed Rate	All-In Effective Rate*
8/29/02	\$38.8	2011A-2 (Indexed Floaters)	4.445%	5.265%
10/1/09	\$52.6	2011A-3 (Indexed Floaters)	4.099%	4.919%
10/1/09	\$221.9	2009D&2010C2 (VRDOs)	4.099%	4.918%
10/1/10	\$158.8	2010D (Indexed Floaters)	4.112%	4.437%
10/1/11	\$118.7	2011A-1 (Indexed Floaters)	3.862%	4.682%

*The Effective Rate takes into account the agreed upon spread on indexed floaters and remarketing and bank facility costs on the VRDOs.

¹⁰ Amounts as of May 29, 2015; A negative value represents a payment by the Airports Authority to the counterparty if the swap is terminated in the current market; a positive value represents a receipt by the Airports Authority if the swap is unwound in the current market.

Exhibit D-2
Swap Program
2009 Swap Effective Interest Rate to-date and Monthly Performance

The Airports Authority's 2009 Swap is a fixed-payor interest rate swap. Under the 2009 Swap: (a) the Airports Authority pays a fixed rate of interest, 4.099 percent, to the swap counterparty; and (b) in return, the swap counterparty pays the Airports Authority a variable rate of interest equal to 72 percent of one-month LIBOR. The variable rate received from the counterparty is designed to closely correlate to the interest rate the Airports Authority pays on the underlying variable rate bonds, thereby creating essentially fixed rate debt ("synthetic" fixed rate debt). The Swap Agreement was dated June 15, 2006, and became effective on October 1, 2009. The 2009 Swap counterparties were Bear Stearns and Bank of America. However, Bear Stearns was bought by JP Morgan in March 2008. The following table represents the 72 percent of one-month LIBOR rate received from the counterparties, the average monthly interest rate on the hedged variable rate bonds paid by the Airports Authority (excludes hedged indexed floaters), and the resulting effective all-in interest rate on the swap. The 2009 swap hedges the Series 2009D Bonds and the Series 2010C2 Bonds. The swap previously hedged the Series 2009A Bonds until these bonds were refunded by the 2011A-3 Indexed Floaters (the calculated effective rate does take into account the 2009A Bonds prior to their refinancing).

Hedged VRDOs and Swaps

Period	1-month LIBOR ¹¹	72% 1-month LIBOR	Average All-In Aggregate Interest Rate ¹²	Average Fixed Swap Rate	Effective Interest Rate ¹³	All-In Effective Rate to Date
6/1/15 – 7/1/15	0.19%	0.13%	0.80%	4.099%	4.768%	4.918%
5/1/15 – 6/1/15	0.18%	0.13%	0.84%	4.099%	4.804%	4.920%
4/1/15 – 5/1/15	0.18%	0.13%	0.78%	4.099%	4.752%	4.921%

2/1/15 – 3/1/15	0.17%	0.12%	0.75%	4.099%	4.726%	4.926%
1/1/15 – 2/1/15	0.17%	0.12%	0.75%	4.099%	4.729%	4.929%

Historical Data:

1/1/14 - 1/1/15	0.16%	0.11%	0.78%	4.099%	4.77%	4.95%
1/1/13 - 1/1/14	0.19%	0.14%	0.78%	4.099%	4.74%	4.99%
1/1/12 - 1/1/13	0.24%	0.17%	0.82%	4.099%	4.75%	5.06%
1/1/11 - 1/1/12	0.23%	0.17%	0.87%	4.099%	4.80%	5.21%
1/1/10 - 1/1/11	0.27%	0.20%	1.41%	4.099%	5.31%	5.35%
10/1/09 – 1/1/10	0.24%	0.17%	1.59%	4.099%	5.52%	5.52%

¹¹ One-month LIBOR is weighted average of weekly one-month LIBOR as reset each Tuesday for a Thursday effective date.

¹² The 2009D-1 and 2010C-2 variable rate bonds are currently in a weekly mode, with interest rate resets each Wednesday for a Thursday effective date. The 2009D-2 variable rate bonds are currently in a daily mode. The 2009A variable rate bonds were in a weekly mode, with interest rate resets each Tuesday for a Wednesday effective date. The interest rate is the all-in interest rate including bank facility costs.

¹³ Totals will not add due to the day count difference of 30/360-day basis for the fixed swap rate and actual/actual day basis for the floating swap rate.
